- 1     17.     By correspondence to the Board dated April 12, 2006, in connection with the Rate  
2             Stabilization Plan - Fuel Price Projection, NLH advised the Board that NLH had  
3             assumed the use of 1% sulphur fuel for the purposes of calculating the RSP Rate to  
4             be applied to Newfoundland Power's rates, effective July 1, 2006. Please calculate  
5             the RSP Rate to be applied to Newfoundland Power's rates, effective July 1, 2006  
6             assuming the use of 2% sulphur fuel.
