**Subject:** My story

I am in nursing school and working! I have been driving since I was 16 years old and attended driving school. I branched off of my mothers insurance so that my driving history would get recognized. I need a car to get to work, school and out home to visit my step dad who had a stroke. I have a clean driving record all around! I have to work 2 jobs while attending school full time because my insurance is \$240 a month. I pay more for my insurance than my own car payment.
