What a day I had today folks!! I checked my account and discovered that my house insurance has increased by \$96.00 a month and my vehicle insurance by \$14.00 a month! In case someone can't add that's \$110.00 a month. Nice. Well lo and behold when I contacted my insurance company to investigate because surely this had to be a mistake I discovered that the PUB had approved a "general increase" resulting in more money being sucked from my account! THANKS VERY MUCH. In a time, place and economy where the cost of living is increasing every which way we all need to have our insurance costs increased to improve the bottom line of the insurance companies. We all know how much they suffer. Let me tell you that life in this Province has become more extreme financially than I ever dreamed in my worst nightmares.
