**Daily Adjustment of Maximum Prices of Certain Regulated Petroleum Products
Gasoline Maximum Price Adjustments in Labrador Zones with Seasonal Pricing**

Daily Maximum Price Adjustments for the Island and Western Labrador

Effective 12:01 a.m. Tuesday, June 30, 2026 the Public Utilities Board set maximum prices in most areas of the province. The changes to maximum prices in zones not subject to seasonal pricing reflect recent changes in market commodity prices.

The changes to maximum fuel prices are as follows:

- all types of gasoline motor fuel will decrease by 3.3 cents per litre (“cpl”);
- diesel motor fuel on the Island will decrease by up to 4.1 cpl;
- diesel motor fuel in Zones 13 and 13a in Labrador will decrease by 3.7 cpl;
- furnace oil heating fuel on the Island will decrease by 3.53 cpl; and,
- stove oil heating fuel in Zones 13 and 13a in Labrador will decrease by 3.14 cpl.

These changes are based on the most recently available market data as of the close of business on June 26, 2026 and as a result do not reflect more recent market activity.

The Board’s next price adjustment for the Island portion of the Province and Western Labrador is on Wednesday, July 1, 2026.

More information about how maximum prices are set, including a full breakdown by pricing zone, can be found on the Board’s website [**here**](#).

Gasoline Maximum Price Adjustments in Labrador Zones with Seasonal Pricing – Zones 11a and 14

Spring resupply of gasoline motor fuel to the Labrador region is complete. The Board has been provided information with respect to acquisition costs, and storage and transportation costs. The Board has reviewed this information and has determined that it is appropriate to adjust maximum prices for gasoline motor fuels in Zones 11a and 14 at this time. Adjustments for gasoline motor fuels were made in Zones 10, 11, 11c, and 12 earlier in June.

Effective Tuesday, June 30, 2026 maximum retail prices for gasoline motor fuels in Zones 11a and 14 will be adjusted as set out below:

Regular Gasoline Motor Fuel Changes to Maximum Retail Prices Zones 11a and 14 Effective: Tuesday, June 30, 2026 (cents per litre)			
Zone	Previous Maximum Retail Price (F/S)	New Maximum Retail Price (F/S)	Change in Maximum Retail Price (with HST)
11a and 14	175.5	216.2	40.7

The maximum price changes for gasoline motor fuels in Zones 11a and 14 noted above include changes reflecting the spring resupply of product. Also included in these changes are changes to the mark-ups and Carbon Price Adjustments for gasoline, to bring them in-line with the changes made for the rest of the Province in May and June 2026.

Diesel motor fuel and stove oil heating fuel maximum prices in all Labrador zones subject to seasonal pricing are expected to be adjusted in the coming days as the Board gathers the necessary information from suppliers in the region. The Board will make adjustments to the suspended maximum prices where necessary and appropriate.
