### **Weekly Adjustment of Maximum Prices of Regulated Petroleum Products**

Effective 12:01 a.m. Thursday, January 3, 2019, the Public Utilities Board set maximum prices for all regulated petroleum products in all areas of the province, except where maximum price adjustments have been suspended for the winter months. This price adjustment follows a price adjustment effective Tuesday, January 1, 2019 reflecting taxation changes announced by the Provincial Government. With this price adjustment the Board returns to its regular weekly schedule of adjustments.

The changes to maximum fuel prices are as follows:

- all types of gasoline motor fuel will increase by up to 0.1 cents per litre (cpl);
- diesel motor fuel will decrease by up to 0.2 cpl;
- furnace oil heating fuel will decrease by 0.14 cpl;
- stove oil heating fuel will decrease by 0.15 cpl; and,
- propane heating fuel will see no change.

These maximum prices reflect the change in the average benchmark price of the products over the current pricing period. As an example, the average benchmark price for gasoline, as tracked on the New York Mercantile Exchange (NYMEX) and converted to Canadian dollars, increased over the period by 0.05 cpl, resulting in an increase of up to 0.1 cpl, accounting for taxation and rounding.

The next scheduled price change is Thursday, January 10, 2019.
