Weekly Adjustment of Maximum Prices of Regulated Petroleum Products

Effective 12:01 a.m. Thursday, May 5, 2022, the Public Utilities Board set maximum prices for regulated petroleum products in all areas of the province, except where maximum price adjustments have been suspended.

The changes to maximum fuel prices are as follows:

- all types of gasoline motor fuel will increase by up to 1.3 cents per litre (cpl);
- diesel motor fuel on the Island will decrease by up to 5.7 cpl;
- diesel motor fuel in Labrador will decrease by 17.1 cpl;
- furnace oil heating fuel will decrease by 4.69 cpl;
- stove oil heating fuel on the Island will decrease by 5.11 cpl;
- stove oil heating fuel in Labrador will decrease by 14.87 cpl; and,
- propane heating fuel will decrease by 1.6 cpl.

Except as set out below, these maximum prices reflect the change in the average benchmark price of the products over the current pricing period. As an example, the average benchmark price for gasoline, as tracked on the New York Mercantile Exchange (NYMEX) and converted to Canadian dollars, increased over the period by 1.11 cpl, resulting in an increase of up to 1.3 cpl, accounting for taxation and rounding.

With this adjustment, the calculation of the maximum price of furnace oil heating fuel and diesel motor fuel on the Island will reflect the completion of the phase-in of changes with respect to seasonal blending as follows:

- The maximum price of furnace oil heating fuel is calculated based on 100% Ultra Low Sulphur Diesel (ULSD), replacing the blend of 10% Jet and 90% ULSD.
- The maximum price of diesel motor fuel supplied on the Island is calculated based on 100% ULSD, replacing the blend of 10% Ultra Low Sulphur Kerosene and 90% ULSD.

In addition, in Order No. P.P. 31(2022) the Board approved the removal of the temporary increase to the retail portion of the total allowed mark-up for diesel motor fuel and stove oil heating fuel in Zone 13 – Western Labrador and Zone 13a – Churchill Falls approved in Order No. P.P. 26(2022). The retail maximum prices for these products in these zones effective 12:01 a.m., Thursday, May 5, 2022 reflect these changes.

While the Board's next regularly scheduled price adjustment is scheduled for Thursday, May 12, 2022 the Board continues to monitor the daily benchmark prices for motor fuels and heating fuels using the prescribed sources set out in the Petroleum Products Regulations and will adjust maximum prices outside the scheduled adjustment if circumstances warrant.
