**Extraordinary Adjustment of Maximum Prices of  
Certain Regulated Petroleum Products**

Due to recent commodity market developments, the Public Utilities Board will intervene and adjust maximum prices outside its regular pricing schedule for gasoline and diesel motor fuels in all zones except where maximum price adjustments have been suspended, and for stove oil heating fuel on the Island.

Effective 12:01 a.m. Friday, November 18, 2022, the changes to maximum prices are as follows:

- all types of gasoline motor fuel will decrease by up to 9.3 cents per litre (cpl)
- diesel motor fuel will decrease by up to 7.9 cpl; and,
- stove oil heating fuel on the Island will decrease by 28.15 cpl.

These maximum prices reflect the change in the average benchmark price of the products since the Board last adjusted maximum prices on Thursday, November 17, 2022. More information about how maximum prices are set including a full breakdown by pricing zone can be found on the Board's website at the following link:

[http://www.pub.nl.ca/PP\\_petroleumproducts.php](http://www.pub.nl.ca/PP_petroleumproducts.php)

While the Board's next regularly scheduled price adjustment is scheduled for Thursday, November 24, 2022 the Board continues to monitor the daily benchmark prices for motor fuels and heating fuels using the prescribed sources set out in the Petroleum Products Regulations and will adjust maximum prices outside the scheduled adjustment if circumstances warrant.
