

1   **Q. Please provide a breakdown of Newfoundland Power's Heavy fleet vehicles,**  
 2   **passenger vehicles and off road vehicles for the years 2011 to forecast 2020.**

3

4   A. A breakdown of Newfoundland Power's heavy fleet vehicles, passenger vehicles and off  
 5   road vehicles for the years 2011 to forecast 2020 is shown in Table 1.

6

7

**Table 1**  
**Summary of Vehicles in Service**

Year	Heavy Fleet	Passenger <sup>1</sup>	Off Road	Total
2011	75	194	123	392
2012	75	194	121	390
2013	73	194	118	385
2014	71	199	116	386
2015F	71	194	118	388
2016F	72	187	118	377
2017F	73	171	118	362
2018F	76	171	118	365
2019F	78	171	118	367
2020F	80	171	118	369

<sup>1</sup> The forecast decrease in the number of passenger vehicles commencing in 2016 is principally related to the increased penetration of AMR meters and the resulting reduction in the amount of time spent reading meters.
