1	Q.	Re:	2017 Capital Projects Overview
2		At pag	ge 14 Hydro states that it "tracked the Phase 1 engineering costs specific to
3		each p	project and these costs form part of the 2017 capital budget submission."
4		Is this	in accordance with previous Board Orders?
5			
6			
7	Α.	As is c	onsistent with past practice, Hydro tracks Phase 1 engineering costs specific
8		to ead	h project and these costs form part of the future capital budget submission.
9		Hydro	does not capitalize or include in rate base the Phase 1 engineering costs until
10		the ap	plicable project is approved in the capital budget submission and the asset is
11		broug	ht into service. In the event the Board does not approve the project and
12		Hydro	does not intend to re-apply then Hydro would remove the Phase 1 costs from
13		work-	in-progress and expense the costs as incurred.
