

- 1 Q. **NLH Evidence, Section 1, page 1.7; Section 5.9, page 5.39 and 5.40**
- 2 Preamble:
- 3 Table 1-1 (on page 1.7) indicates a rate increase for the Labrador Industrial
- 4 Transmission Rate (LITR) of 14.9% for the Interim 2018 TY (relative to July 1, 2017
- 5 rates), and for another 38.9% for the 2019 TY (relative to the Interim 2018 TY rates).
- 6 According to note 8 (page 1.7), The percentage increase in the Labrador Industrial
- 7 Transmission rate does not provide the total customer billing impact as the
- 8 percentage is calculated based on the projected change in transmission demand
- 9 charges but does not include the non-regulated portion of the bill that recovers
- 10 generation costs.
- 11 Table 5-8 shows that Labrador Industrial Billings for transmission will increase from
- 12 4.0 to 5.6 (an increase of 40%) in the Proposed 2019 rates, compared to the
- 13 proposed Interim 2018. (No units are specified.)
- 14 a. Do Tables 5-7 and 5-8 represent the customer billing impacts for customers
- 15 subject to the Labrador Industrial Transmission Rate (LITR), resulting from
- 16 the LITR rate increases shown in Table 1-1?
- 17 b. If not, please:
- 18 i. explain the relationship between the figures shown in Table 5-8 and
- 19 those shown in Table 1-1, and
- 20 ii. quantify the customer billing impacts for customers subject to the
- 21 Labrador Industrial Transmission Rate (LITR), resulting from the LITR
- 22 rate increases shown in Table 1-1.
- 23 c. Please specify the units and/or assumptions underlying Tables 5-7 and 5-8.
- 24
- 25
- 26

- 1 A. Hydro notes that the preamble refers to figures from the original filing which was
2 updated in Revision 1, filed September 15, 2017:
- 3 a) Tables 5-7 and 5-8 represent the customer billing impacts for customers
4 subject to the Labrador Industrial Transmission Rate;
 - 5 b) Please refer to Hydro's response to item a); and
 - 6 c) The requested information can be found in Schedule 5-III page 8 of 8 and Schedule
7 5-IV, page 8 of 8.
