

1 Q. Reference: Hydro's 2016 Standby Fuel Deferral Application, February 5, 2016,
2 response to Request for Information NP-NLH-010. Hydro states:

3

4 *"To demonstrate that the fuel costs associated with the operation of Standby*
5 *Generation were prudently incurred, at the end of each quarter, Hydro will provide a*
6 *daily account of the generating units start and end times, durations and reason(s)*
7 *for operation. Hydro will also provide a monthly summary of energy by unit, fuel*
8 *consumption and cost. To demonstrate the operation of Standby Generation for low*
9 *hydrology, Hydro also proposes to provide its weekly generation guidelines."*

10

11 Please provide the information outlined above for 2015 and 2016.

12

13

14 A. Please refer to Hydro's response to IC-NLH-004 for the information outline above.
