

1 Q. For each division or major area of operations of Nalcor please explain the  
2 underlying rationale for its creation and explain why the mandate of that division  
3 could not be carried out by Newfoundland and Labrador Hydro.

4

5

6 A. To assist in answering this question, the following outlines the background behind  
7 the creation of Nalcor, its subsidiaries and divisions, along with the various  
8 considerations underlying the performance of activities by subsidiaries or divisions  
9 outside of Hydro, including:

- 10 • Legislative considerations;
- 11 • Financing considerations;
- 12 • Commercial considerations;
- 13 • Labour considerations; and
- 14 • Operational considerations.

15

## 16 **BACKGROUND**

17 1. 2006: The Hydro Board approved restructuring to achieve the following  
18 objectives:

- 19 a. Segregation of existing regulated and non-regulated assets;
- 20 b. Flexibility to enter into future joint ventures, partnerships and other  
21 arrangements to achieve strategic objectives; and
- 22 c. Limited recourse to business units from financing and other risks  
23 (including risks associated with development of Lower Churchill  
24 Project (LCP)).

1           2. 2007: Formation of Nalcor as a corporate entity through *Energy Corporation*  
2           *Act*, SNL 2007 E-11.01 (ECA).

3  
4           3. 2012: In respect of LCP, Nalcor initiated the formation of the Labrador-  
5           Island Link (LIL) related entities pursuant to Nalcor/Emera agreements.

6  
7           4. 2013: In respect of LCP, Nalcor initiated the formation of the remaining  
8           Muskrat Falls Project (MFP) entities as part of financing and Newfoundland  
9           and Labrador (NL) revenue agreements.

10  
11           Formation of entities in 2012 and 2013 as per #3 and #4 took into account  
12           the following considerations:

- 13           a. Ring-fencing project debt from Nalcor and other assets;  
14           b. Separating borrowing entities for the Muskrat Falls (MF) Plant,  
15           Labrador Transmission Assets (LTA) and LIL pursuant to the Federal  
16           Loan Guarantee (FLG);  
17           c. Limit liability and recourse to Nalcor and NL relating to project  
18           financing commercial arrangements and construction contracts;  
19           d. Separating ownership in the MF, LTA and LIL (Emera has an  
20           ownership interest in LIL, but not MF or LTA);  
21           e. Protecting tax-exempt status of Nalcor in the LIL (see further  
22           comments on this below); and  
23           f. Ensuring 100% of transmission rights on LIL were owned by Nalcor in  
24           separate legal entity from LIL Partnership. LIL is leased to LIL OpCo,  
25           which is owned 100% by Nalcor.

26

1           5. 2014: Formation of Nalcor Marketing Corporation (NEM) as the external  
2           face of Nalcor in North American energy markets. Creating NEM as a stand-  
3           along entity shielded Nalcor from the risk of becoming a taxable entity in the  
4           US and removed Hydro's exposure to energy marketing activities  
5           (segregating non-regulated from regulated activities). This stand-alone  
6           entity has become a common Canadian market structure approach with  
7           respect to organizing energy and marketing activities. The creation of NEM  
8           also assisted with protecting commercially sensitive information. NEM is a  
9           functional and operating company with permits, trade agreements and  
10          other contractual arrangements.

11  
12          6. 2016: Nalcor's current organizational structure (as noted in Nalcor's  
13          response to PUB-Nalcor-001) reflects the following identified priorities:  
14              a. Ensure successful completion of the MFP;  
15              b. Prepare the provincial electricity system for integration of MF power;  
16              and  
17              c. Maintain clear separation of (and focus on) the regulated business  
18              from the remaining unregulated business operations while  
19              continuing its commitment to providing safe, reliable electricity to  
20              Hydro's customers.

21  
22          Nalcor has organized its electricity operations into regulated and non-  
23          regulated segments. On the regulated side (Hydro), the structure provides a  
24          dedicated focus on its regulated electricity operations and a single executive  
25          leadership for this division to ensure the provision of reliable service to  
26          Hydro customers. With respect to non-regulated electricity operations  
27          (Power Supply), this structure allows for separate focus on completion of

1 the MFP and utilizing existing (e.g., Churchill Falls assets) and future (e.g.,  
2 Gull Island, wind, etc.) non-regulated assets to maximize value for the  
3 Province.

4  
5 7. In recognition of the fact that Nalcor's activities can be more "commercial"  
6 in nature than those of Hydro, there are provisions of the Energy  
7 Corporation Act (ECA) that provide Nalcor (and some of its subsidiaries) with  
8 legislative exemptions that do not apply to Hydro. These include:

9 a. Section 5.4 of the ECA, which provides Nalcor with an additional  
10 exemption under the Access to Information and Protection of Privacy  
11 Act with respect to "commercially sensitive information" under  
12 certain circumstances; and

13 b. Section 17.1, which stipulates that certain of Nalcor's procurement  
14 activities are not subject to the Public Procurement Act (PPA).

15 Section 5.4 was included as part of the ECA in 2008 and section 17.1  
16 became effective in 2018, at the same time as the PPA.

17 It is worth noting that while the separation of Oil and Gas from Nalcor will  
18 lessen the need for Nalcor to rely on these provisions, it will not eliminate it  
19 given the continued commercial nature of some of Nalcor's activities.

## 20 21 **LEGISLATIVE CONSIDERATIONS**

### 22 Hydro Corporation Act

23 The *Hydro Corporation Act, 2007* (Hydro Act) establishes Hydro as a corporate  
24 entity. Section 3.1 provides that contracts and ancillary arrangements relating to  
25 the purchase of electrical energy, capacity and transmission services including  
26 contracts providing for direct cost reimbursement to the MFP are entered into in  
27 the corporation's own capacity and not as an agent of the Crown. This insulation of

1 the Crown from liability pertains to agreements that Hydro enters into and it  
2 appears that it would not apply to risks incurred by Hydro where Hydro is self-  
3 supplying these services.

4  
5 Section 5 of the Hydro Act sets out the company's objects. It provides that the prior  
6 approval of the Lieutenant Governor in Council is required for Hydro to sell energy  
7 outside the province.

#### 8 9 MFP Specific Orders

10 The Muskrat Falls Project Exemption Order and OC2013-343 together represent the  
11 mechanisms by which Muskrat Falls Corporation (MFC), Labrador Transmission  
12 Corporation (LTC) and LIL parties recover MF project costs through its cost recovery  
13 mechanisms. They are quite specific as to legal entities and costs that may be  
14 recovered. Any changes to the arrangements that exist between Hydro, a LIL party,  
15 Muskrat Falls and LTC, could impact the ability to recover and therefore pay MF  
16 project costs and FLG obligations.

#### 17 18 **FINANCING/FLG CONSIDERATIONS**

19 Please refer to Nalcor's responses to Nalcor's response to PUB-Nalcor-019 for the  
20 agreements referenced below.

#### 21 22 FLG Security

- 23 a. Shares of Nalcor's MF subsidiaries are pledged to the Collateral Agent (TD Bank)  
24 in support of the FLG financings; and
- 25 b. All real and personal property, contracts etc. of Nalcor's MF related subsidiaries  
26 have been granted as security to the Collateral Agent (TD Bank) in support of  
27 the FLG financings.

1 MF/LTA Project Financing Agreement (MF/LTA PFA) /LIL Project Finance Agreement  
2 (LIL PFA), dated May 10, 2017

- 3 a. LIL PFA is a long-term agreement with various financing parties including LIL  
4 Partnership and LIL OpCo;
- 5 b. Section 12.4 of both the MF/LTA PFA and LIL PFA impose restrictions with  
6 respect to MFC, LTC, LIL Partnership or LIL OpCo's ability to wind-up, liquidate or  
7 dissolve its affairs or enter into any transaction of amalgamation, merger,  
8 consolidation or other business combination or convey, sell, alienate, lease or  
9 otherwise dispose of all or substantially all of its assets. Certain amalgamations  
10 and assets sales are permitted with Nalcor subsidiaries provided the  
11 amalgamated company or purchaser (as the case may be) is responsible for the  
12 FLG obligations.
- 13 c. MFC, LTC, and the LIL entities are special-purpose corporations that, pursuant  
14 to its Organizational Documents, the MF/LTA PFA, and the LIL PFA must only  
15 own and operate the Project and Project Assets and not conduct any other  
16 business. Most affirmative and negative covenants, representations and Events  
17 of Default would need to be amended if MFC, LTC, or the LIL entities were to  
18 undertake a major transaction with any other subsidiary of Nalcor that itself  
19 owns other assets or operates any business.

20  
21 Intermediary Trust Project Financing Agreement, dated May 10, 2017 (IT PFA)

22 Similar provisions exist under the IT PFA as in the LIL PFA.

23  
24 The MF/LTA financing and the LIL financing are completely separate from one  
25 another and are not cross-collateralized although each financing benefits from an  
26 automatic cross-default provision with the other financing. Any consideration of a  
27 major transaction between MFC and LTC with LIL entities would have to be carefully

1 examined by tax advisors and would necessitate extensive amendments to the  
2 Project Finance Agreements and negotiations with the Government of Canada.

3  
4 Trust Deed

5 Each of the funding vehicles (namely the MF/LTA Funding Trust, the LIL Funding  
6 Trust and the LIL Construction Project Trust) is a trust established under the laws of  
7 Newfoundland and Labrador and is under the complete control of BNY Trust  
8 Company of Canada, as Issuer Trustee. Some actions of the Issuer Trustee are  
9 subject to review or approval by the Government of Canada as Guarantor of the  
10 financings in place, but not by NL Crown, who has no control over these trusts.  
11 None of these entities could be part of any consolidation or reorganization carried  
12 out by Nalcor with respect to the MFP special project entities.

13  
14 **COMMERCIAL CONSIDERATIONS**

15 Please refer to Nalcor's responses to PUB-Nalcor-016 and PUB-Nalcor-017 for  
16 copies of the agreements referenced below.

17

- 26           c. The “Assignment and Change of Control” provisions at Section 19.1 and 19.2
- 27           may be relevant to a future consolidation.

1 Generator Interconnection Agreement, dated November 29, 2013 (GIA)

- 2 a. The GIA is a long-term agreement commencing at commissioning and  
3 expiring 50 thereafter. The parties are LTC, MFC and Hydro in its capacity as  
4 Newfoundland and Labrador System Operator (NLSO).
- 5 b. It is an “event of default” under GIA if either party ceases to carry on  
6 business or, unless otherwise authorized transfers all or substantially all of  
7 its undertaking and assets (Section. 15.1(d) and 15.3(d)).
- 8 c. The “Assignment and Change of Control” provisions at Section 20.1, 20.2  
9 and 20.3 may be relevant to a future consolidation.

10  
11 ***Emera Agreements***

12 Each of the (i) Maritime Link Joint Development Agreement, (ii) Energy Capacity  
13 Agreement, (iii) Maritime Link (Emera)Transmission Service Agreement, (iv)  
14 Maritime Link (Nalcor)Transmission Service Agreement, (v) Nova Scotia  
15 Transmission Utilization Agreement , (vi) New Brunswick Transmission Utilization  
16 Agreement, (vii) MEPCO Transmission Rights Agreement , (viii) Joint Operators  
17 Agreement, (ix) Newfoundland and Labrador Development Agreement (NLDA)  
18 include provisions similar to those set out above under the MFP Revenue  
19 Agreements:

- 20 a. It is an “event of default” if either party ceases to carry on business or  
21 transfers all or substantially all of its undertaking and assets.
- 22 b. See applicable Assignment and Change of Control provisions in each  
23 agreement as it may have implications for future restructuring or  
24 consolidation.

25  
26 With respect to Nalcor’s tax exempt status, Nalcor and Emera entered into a  
27 Limited Partnership and other arrangements with respect to their interest in the LIL

1 to preserve Nalcor's tax exempt status. It allows separation of the Nalcor (non-  
2 taxable) share of the income from the LIL, from the Emera Taxable share. Tax status  
3 should be considered with any consolidation plans for Nalcor's LIL subsidiaries.  
4

5 In addition to the FLG restrictions on the LIL Partnership, any significant action with  
6 respect to the LIL Partnership structure must have the agreement of Emera.  
7 Between the LIL Limited Partnership Agreement and the Newfoundland and  
8 Labrador Development Agreement, Emera has the benefit of (in effect) a guarantee  
9 by Nalcor of its anticipated return over the life of the LIL.  
10

#### 11 **LABOUR CONSIDERATIONS**

12 Nalcor has a separate and distinct Operations and Maintenance (O&M) agreement  
13 with IBEW, Local 1615 that is specific to the assets and works associated with LIL  
14 and MF Generation. See Article 1 - Recognition, page 1 of the Collective Agreement  
15 between Power Supply Division, Nalcor and IBEW Local 1615 provided in PUB-  
16 Nalcor-008, Attachment 1. Hydro workers are represented by the same Local of  
17 IBEW (1615); however, Hydro's bargaining units are separate and distinct from that  
18 of Nalcor (as referenced by scope of work and unit of employees outlined in  
19 certification orders<sup>1</sup> and *Article 1 – Recognition* which appears in each respective  
20 collective agreement. The agreement between Hydro and Local 1615 of the  
21 International Brotherhood of Electrical Workers, Operations Unit is attached as  
22 PUB-Nalcor-008, Attachment 2.

---

<sup>1</sup> On December 10, 2018, IBEW Local 1615 applied to the Labour Relations Board seeking formal certification as bargaining agent affecting IBEW, Local 1615, and Nalcor (Operating as Power Supply Division). Nalcor is supporting the application based on previous voluntary recognition as outlined in Article 1 – Recognition of the collective agreement). A final certification order is pending.

1 The implications arising from distinct and separate bargaining units and therefore  
2 constraints to consolidating/merging activities are as follows:

- 3 a. The collective agreement between Nalcor and IBEW 1615 specifically recognizes  
4 and enables commitments made in relation to the Lower Churchill Innu Impacts  
5 and Benefits Agreement (IBA).<sup>2</sup> Nalcor specifically negotiated special provisions  
6 in the collective agreement to honour such commitments. Such provisions were  
7 not required for Hydro operations.
- 8 b. Agreements generally do not allow reciprocity of seniority between the  
9 bargaining units and therefore entities. Any consolidation of activities would  
10 require negotiated agreement between the union and companies or  
11 involvement of the NL Labour Relations Board to combine and resolve  
12 complexities associated with implementing IBA commitments and seniority  
13 issues.
- 14 c. The collective agreements have differences in various terms and conditions  
15 which are reflective of differences in the various assets and structures, including  
16 asset base, geography, technology, and operating models. Overall, separate  
17 collective agreements give Nalcor and Hydro more options and flexibility to  
18 manage distinct mandates, needs and requirements.

19  
20 **OPERATIONAL CONSIDERATIONS**

21 While it is possible to combine some activities of Nalcor into Hydro, overall the staff  
22 and resources required to operate Nalcor and Hydro assets in a reliable manner  
23 would not significantly change; only the business segments where the costs would  
24 reside would change. Currently, Nalcor and Hydro share staff and resources to

<sup>2</sup> The IBA is a confidential agreement made prior to the commencement of the Lower Churchill Project between Nalcor, Innu Nation, Sheshatshiu Innu First Nation and Mushuau Innu First Nation executed on November 18, 2011.

1           ensure both companies are operating in the most efficient, cost effective manner  
2           possible. In the case of the MFP, Nalcor has existing O&M agreements with both  
3           Churchill Falls and Hydro to provide operating and maintenance services to both the  
4           LTA and the LIL. As well, Hydro and Nalcor provide common services to each other  
5           that are transacted under the Intercompany Transaction Costing Guidelines (based  
6           on the principle of cost based recovery with no profit component). Please refer to  
7           Nalcor's response to PUB-Nalcor-047 for copies of these arrangements.

THIS AGREEMENT made this 27th day of April, 2017

BETWEEN

POWER SUPPLY, a non-regulated utility of Nalcor Energy, hereinafter referred to as "THE CORPORATION"

of the First Part

AND

LOCAL 1615 OF THE INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS, hereinafter referred to as "THE UNION"

of the Second Part

WHEREAS; the Corporation is engaged in the generation and transmission of electrical energy within the Province of Newfoundland & Labrador, and;

WHEREAS; in consideration of the duty and obligation of the Corporation through its employees to maintaining satisfactory, economical, effective and continuous service in the provision of reliable electricity for the benefit of the people of the Province and;

NOW THEREFORE, this Agreement witnesseth and the parties hereto do hereby agree.

### **ARTICLE 1 - RECOGNITION**

- 1.01 The Corporation recognizes the Union as the sole bargaining agent for those employees of its Power Supply division (excluding CFL Co. and Menihek), in the classifications set out in Schedule "A" annexed hereto, employed to provide operation and maintenance services in respect of:
- a) the Muskrat Falls generating facility;
  - b) the Labrador-Island transmission infrastructure extending from Muskrat Falls generating facility to Soldier's Pond (excluding the offshore works associated with the submarine cable between southern Labrador and the island of Newfoundland and any related onshore works requiring repair or maintenance activities by the cable manufacturer or specialized contractors), and
  - c) the AC Switchyard located at Muskrat Falls Site

within the scope and duration of agreements entered into by the Corporation with or for the benefit of the respective owners of such assets and facilities from time to time.

### **ARTICLE 2 - CONTINUITY OF SERVICE**

- 2.01 The duties performed by the employees of the Corporation as part of their employment are essential to the operation of a public utility and the welfare of the public is dependant thereon and it is therefore agreed that during the term of this Agreement there shall, at no time, be a strike by the Union or a lockout by the Corporation.

The word "strike" as used herein includes a cessation of work, or refusal to work or to continue to work, by employees, in combination or in concert or in accordance with common understanding.

- 2.02 The Union agrees not to permit its members to commit any act which will serve to discredit the Corporation in the eyes of the public while on Corporation business; the Corporation likewise agrees to do nothing to discredit the Union.

### **ARTICLE 3 - DEFINITIONS**

- 3.01 For the purpose of this Agreement, the terms, "Permanent Employee", "Probationary Employee", "Full/Part Time Employee", "Term Employee", "Crew", "Lead Hand", "Out-of-Scope Employee", and "Temporary Employee" "Emergency Work" and "Section" shall have the meaning hereinafter ascribed to them and no other.

3.02 "Permanent Employee" is an employee who has completed the probationary period hereinafter defined and who has been appointed to a position which has been designated a permanent position by the Corporation. Notwithstanding the provisions of this Clause, when a person is hired to replace an employee who is on Workers' Compensation or Long Term Disability, he/she will be hired on the condition that, should the incumbent employee be declared medically fit and returns to work, he/she will be laid off in accordance with the provisions of Article 29.

3.03 "Probationary Employee" is an employee who has been hired to fill a permanent or term position, and who before being advanced to the status of "Permanent or Term Employee" must undergo a period of probation of three (3) calendar months. If during, or at the end of such period, the Corporation judges that the employee is unsatisfactory, his/her employment may be terminated.

3.04 "Full Time Employee" is an employee whose normal scheduled hours of work are in accordance with the hours of work outlined in Article 15 of this agreement.

"Part Time Employee" is an employee whose normal scheduled hours of work are less than the normal workday, normal work week or normal hours per week in a cycle of shifts for a Full Time employee in his/her classification. A Part Time employee who is assigned to work in excess of his/her normally scheduled daily work hours, normal work week or normal hours per week in a cycle of shifts shall be paid at straight time rates until he/she has worked the equivalent of full time hours per day, per week or hours per week in a cycle of shifts and at premium rates for any hours worked thereafter. Where applicable a Part Time employee shall be eligible for holiday, vacation, leave and salary based insurance benefits under this Agreement however, payment of such benefits will be pro-rated in accordance with his/her normal scheduled hours of work. Permanent Part Time employees shall participate in the Government Money Purchase Pension Plan (GMPP).

3.05 "Term Employee" is an employee who is hired into a classification covered by this Collective Agreement to complete a special project or to replace an employee on leave of absence where the duration of the job is for a specified period which is in excess of twelve (12) continuous months and the period of time is usually, but not necessarily, less than four (4) continuous years. Term employees will be laid off upon completion of their term. Term employees will accrue service time for the purpose of rehire for temporary employment per Clause 38.02(i) – Seniority and will be subject to Article 9 of this Agreement. Term employees will also be eligible for all permanent employee benefits under this Agreement with the exception of Articles 24, 29, 32 and Long Term Disability under Clause 26.01.

- 3.06 "Crew" means a group of employees working on a specific job under one Front Line Supervisor and who are performing duties related to a specific job, which makes them directly interdependent one on the other.
- 3.07 "Lead Hand" is an employee who, when appointed to lead a crew of not less than two (2) or more than four (4) employees including him/herself, and when so designated, ranks, in order of responsibility, immediately below Front Line Supervisor. Such designation shall not affect an employee's classification.
- 3.08 "Out of Scope Employee" is an employee who does not form part of the Bargaining Unit as defined by Article 1.01.
- 3.09 "Temporary Employee"
- (a) "Temporary Employee" means an employee hired by the Corporation on a temporary or casual basis for a continuous period in excess of eighty (80) hours. Temporary employees will be subject to the provisions of Article 38 of this Agreement.

Where present practices have established a shorter interval for overtime posting, that practice will be continued. Effective January 1<sup>st</sup> of each year, the low person on a particular overtime list will be zeroed, with the remaining list being adjusted proportionately.

New employees and transferred employees to other work locations will be averaged into the overtime list for that section and location.

16.06 When employees are required to remain in the Corporation line camps over weekends they will be required to work and paid applicable overtime rates.

16.07 Meals During Overtime. The purpose of this Clause is to provide sustenance in the form of meals to employees during overtime or emergency work. It is recognized that circumstances may occasionally be such that it is highly impractical to provide meals within the time limits prescribed below. If such circumstances can be foreseen, the Supervisor is empowered to offer the meal prior or subsequent to the time limits. In any event, every effort will be made to provide meals as close as possible to the time they are due.

(a) When an employee performs work under Clause 16.01(a), he/she will be entitled to a meal after working four (4) continuous hours providing overtime is to continue. Additional meals shall be provided on a four (4) hour interval basis after the expiry of the first four (4) hours providing overtime continues after each four (4) hour period thereafter. He/she may be allowed up to thirty (30) minutes to eat a meal, as stated above, at the expiration of each four (4) hour period with no loss of pay. However, no time will be allowed at the expiration of overtime work.

If the callout is prior to the normal workday and less than four (4) hours actually worked, and provided the work continues into the normal workday, he/she shall be entitled to a meal as close as practical to the time he/she starts his/her normal workday. If the meal is provided he/she will be allowed up to thirty (30) minutes to eat the meal.

(b) When an employee performs overtime work under Clause 16.01(b) - he/she shall be entitled to a meal after working ten (10) continuous hours (or fourteen (14) hours as per Clause 15.03), and providing overtime is to continue. Additional meals shall be provided on a four (4) hour interval basis after the expiry of the first ten (10) hours (or fourteen (14) hours as per Clause 15.03(o)), providing overtime continues after each four (4) hour period thereafter. He/she may be allowed up to thirty (30) minutes to eat a meal, as stated above, at the expiration of each four (4) hour

period with no loss of pay. However, no time will be allowed at the expiration of overtime work.

- (c) When an employee performs overtime work under Clause 16.01(c), he/she shall be entitled to a meal after working ten (10) continuous hours providing overtime is to continue. Additional meals shall be provided on a four (4) hour interval basis after the expiry of the first ten (10) hours providing overtime continues after each four (4) hour period thereafter. He/she may be allowed up to thirty (30) minutes to eat a meal, as stated above, at the expiration of each four (4) hour period with no loss of pay. However, no time will be allowed at the expiration of overtime work. For the purpose of providing overtime meals, any notice of less than two (2) hours will be subject to Clause 16.07(a).
- (d) When an employee continues working under Clause 16.01(d), he/she shall be entitled to a meal after working two (2) continuous hours providing overtime is to continue. Additional meals shall be provided on a four (4) hour interval basis after the expiry of the first two (2) hours providing overtime continues after each four (4) hour period thereafter. He/she may be allowed up to thirty (30) minutes to eat a meal, as stated above, at the expiration of the first two (2) hours and each four (4) hour period thereafter with no loss of pay. However, no time will be allowed at the expiration of overtime work.
- (e) If the meal cannot be provided the employee will be paid \$18.50 in lieu of the meal.
- (f) If an employee is not eligible for a meal under Clause 16.07 a, b, c & d, then an employee who works planned or unplanned overtime prior to the start of the regular day and continues working extension overtime at the end of the regular day and the combination of continuous regular hours and overtime hours exceed ten (10) (or fourteen (14) hours as per Clause 15.03), the employee will be entitled to an overtime meal.
- (g) Notwithstanding anything written in Clause 16.07, an employee will not, under any circumstances, be eligible to receive both overtime meals or payment in lieu, and per diem travel expenses concurrently. Therefore, when an employee is eligible for travel expenses he/she must claim the applicable per diem rates as per Article 31. Clause 16.07 will apply only where the per diem rates are not applicable.

#### **ARTICLE 17 - PERIOD OF REST**

- 17.01 If an employee is required to work, without notice, during the period between midnight and 0500 hours, the employee will be permitted, where possible, an

eight (8) hour rest period before he/she is required to assume his/her regular duties. If any portion of the eight (8) hours occurs within his/her regular hours of work, he/she will be paid, for that time so occurring, at regular straight time rates.

- 17.02 Notwithstanding the above, where circumstances permit, the Corporation will make every reasonable effort to grant an eight (8) hour rest period to an employee who has worked for fourteen (14) hours in a twenty-four (24) hour period. If said eight (8) hours or a portion thereof occurs within the employee's next scheduled regular eight (8) hours of work, that time so occurring shall, for pay purposes, be considered as time worked.
- 17.03 It is understood that in the case of an emergency work, as per Clause 3.10, it may not be possible to comply fully with the above, however, the major consideration must be the safety of the employee.
- 17.04 This Article shall not apply to employees who are working in accordance with accepted shift schedules.
- 17.05 Notwithstanding Clauses 17.01 and 17.02, if the employee is unable to be relieved for the eight (8) hour rest period, he/she shall be paid at overtime rates until so relieved.

#### **ARTICLE 18 - STANDBY**

The Company will require Standby when there is significant operational risk (such as potential for widespread power outages) impacting customers and stakeholders. This is associated with the operation of generating facilities on the Island Interconnected System, major transmission lines, and/or their associated terminal stations. The requirement for Standby is to ensure the reliable delivery of power to the province of Newfoundland and Labrador.

Standby can be implemented based on the following criteria from System Operations:

- 1) Pending Storm – System Operations recommends a state of preparedness based on weather forecast as per the Company's Severe Weather Preparedness Plan. The Manager of Transmission (Power Supply) or Manager of the Generating Facility will determine if standby is necessary considering operational risk.

OR

- 2) Alert Level 2 or higher as per System Operating Instruction T-001. This means we are operating outside of our n-1 generation criteria.

18.01 Except where covered by 15.03, employees shall perform Standby when initiated by System Operations. The employee is required to report to work within one (1) hour) if/when called. While on Standby, the employee shall be available via phone (or via other agreed to communication method).

- a) Standby – Weekday
  - The standby rate is one (1) hour straight time for every eight (8) hours on Standby;
- b) Standby – Weekend (Normal Residence)
  - The standby rate is one (1) hour premium time for every eight (8) hours on Standby;
- c) Standby – Assigned Away from Normal Residence Overnight for Standby Only
  - The standby rate is one (1) hour premium time for every three (3) hours on Standby.

Note: In Article 18.01 a, b, c, if Standby is required on a Statutory Holiday, the rates double.

18.02 Qualified persons lowest on the overtime list as per Article 16.05 will be given first opportunity for Standby where Standby is required. The person on Standby for a specific location/area will be the first person called for the specific location/area and are not necessarily the lowest on the overtime list. If no person volunteers, the Standby assignment will be rotated among qualified persons in the location/area where Standby is required, beginning with least senior employee. Overtime lists will be updated bi-weekly.

Employees will have the right to refuse standby after serving six (6) instances of Standby in a calendar year. Employees will not have to perform Standby on two (2) consecutive calendar weekends.

Employees who are on Standby and are required to respond to work will be paid as per Article 16.01 (a). Standby pay will not be reduced by actual call-out overtime hours worked.

18.03 Notice and assignment for planned Standby will be given after an operational risk is identified and before the end of the scheduled work day, where possible. Periods of Standby durations will typically last as long as the significant operational risk exists. Standby will not be paid during scheduled working hours.

18.04 Once assigned Standby, employees will be paid for the duration of scheduled Standby. Employees performing Standby away from Normal Residence

Overnight will continue on Standby until such time as they are released and/or able to travel to their normal residence.

- 18.05 Vehicles and required communications equipment will be provided while on Standby.
- 18.06 The Corporation will establish a committee consisting of two (2) members of Senior Management and two (2) representatives of IBEW Local 1615 to review the activities of the Corporation with respect to Standby. The committee will meet following the enactment of Standby (unless both parties agree otherwise) to review the process followed.
- The costs associated with this committee will be the responsibility of the Corporation.
- 18.07 The committee will be responsible for creating terms of reference which will include mutually agreed upon provisions for amending and/or retracting the terms listed in Article 18.01 to 18.06. Discontinuation will result in reverting to the previous contract language whereby Standby and Standby conditions will be subject to negotiations between the Union and the Corporation.

#### **ARTICLE 19 - TRAVEL TIME**

- 19.01 Employees working from normal headquarters shall be allowed as part of their normal work day, travel time between headquarters and the site of their work.
- 19.02 Employees stationed away from normal headquarters shall be allowed, as part of their normal work day, the time required to travel from their place of accommodation to their work site, and in addition, they shall be allowed as part of their normal work day, the time required to return from their work site to their place of accommodation or to their headquarters, as the case may be.
- 19.03 When an employee is required to travel to a job site away from normal headquarters during normal working hours, he/she shall be paid for the time involved in travelling up to a maximum of eight (8) hours per day at his/her regular hourly rate. Employees shall be compensated for travel time at applicable overtime rates when:
- (a) He/she is directed by his/her Supervisor to continue travel after regular hours.
  - (b) Where it is mutually agreed between Supervisor and employee that suitable accommodations are not available making it necessary to continue travelling.

19.04 Notwithstanding any other provisions of Article 19, when employees are working away from their normal headquarters and the Supervisor is satisfied that the assignment or project is complete and there is no further work to be performed in the area, then, by agreement between the majority of the group or crew, the Supervisor will permit the employees to travel home that workday. The employees will be compensated for the travel time occurring outside the normal workday by being allowed to take an equal number of hours off the next normal workday with no loss of pay or the employees may, rather than take equivalent hours off, be paid double time pay for the hours involved, or the employee may be permitted to add any such hours to his/her banked time under Clause 16.02 up to the permissible maximum hours banked under that Clause.

- 19.05
- (a) When an employee is required to work away from his/her normal headquarters for a period exceeding three (3) weeks, the Corporation shall provide him/her with transportation to his/her headquarters every second weekend; the Corporation shall also provide transportation on the return trip to the job site.
  - (b) Employees who are eligible for a bi-weekly trip to their normal headquarters in accordance with paragraph (a), may have their basic hours of work established on a ten (10) consecutive day basis at eight (8) hours a day, provided it is mutually agreed between the majority of the group or crew concerned and the Supervisor.
  - (c) Notwithstanding the provisions of this Clause, with mutual agreement between the majority of the group or crew concerned and the Supervisor, employees who are required to work away from their normal headquarters for any period of time which involves weekends, may have their defined normal work week changed to a period of fourteen (14) consecutive days of ten (10) consecutive days on at eight (8) hours a day and four (4) consecutive days off. For the purpose of the determination of this period, the commencement day will be Monday of the first week.
  - (d) An employee who is eligible for a bi-weekly trip to his/her normal headquarters in accordance with paragraph (a) and (c) will be allowed the necessary travelling time up to four (4) hours to be paid at his/her normal straight time hourly rate for each one-way trip. If transportation facilities necessitate that his/her absence from the job during the regular work hours exceeds the four (4) hour maximum, the employee shall not have any pay deducted from his/her normal work day.
  - (e) In the case where circumstances beyond the control of the Corporation makes it impossible to travel the employees back to their normal headquarters on the designated weekends under this Clause, the employee will continue working basic normal working hours on the days so occurring and be paid applicable overtime rates.

19.06 It is understood that any combination of hours worked in excess of 8 hours in any one day or forty (40) hours in any one week under Clauses 19.04, 19.05 and 19.09 will be used solely as time off in lieu of pay, hour for hour, and will not, under any circumstances be subject to overtime under Article 16.

19.07 In the administration of the Corporation's program of safety training and job training, the Corporation may from time to time require an employee to travel to various schools of instruction within the Province of Newfoundland and Labrador. In such cases, the Corporation will compensate the employee for time travelled outside his/her normal workday or normal work week, at straight time rates.

When an employee is required to travel to various schools of instruction outside the Province of Newfoundland and Labrador, the Corporation will compensate the employee for actual time spent travelling to reach their destination accommodations up to a maximum of eight (8) hours per day.

The Corporation will endeavour, where possible, to travel the employee on his/her normal workday or work week as defined under Article 15 of this contract. If an employee is required to travel to a safety meeting outside of normal work hours, they will be paid at the double time rate.

19.08 Employees travelling to and from work assignments by water borne craft will be paid at premium rates for the hours travelled outside regular daily hours of work in accordance with the following:

1. One and one-half hours before craft's embarkation from employee's original boarding point.
2. One and one-half hours after the craft's arrival at the employee's port of destination.
3. When the employee is on board the craft for three hours or less. In the event the boat is delayed for some unforeseen reason, the employee will receive compensation based on the scheduled sailing time not to exceed the 3 hour maximum.
4. When the employee is on board the craft and a berth is not available.

19.09 Employees who are required to work away from their normal headquarters for any period of time which involves weekends, and provided the job is a minimum of eighty (80) hours duration, may have their defined normal work week changed to a period of fourteen (14) consecutive days of eight (8) consecutive days on at ten (10) hours a day and six (6) consecutive days off. For the purpose of the

determination of this period, the commencement day will be on the first day of the ten (10) hour schedule.

In order to work the above schedule, the job, in the estimation of the Supervisor, must be able to be performed practically and reasonably within the ten (10) hour day. The decision to work this schedule must be made prior to leaving headquarters and must be for the duration of the project. This work schedule may be requested by either party, however, the working of the schedule will be by mutual agreement between the majority of the crew concerned and the Supervisor.

Vacations requested to be taken during the project must be scheduled prior to commencing the project and will be taken in periods of eighty (80) hours. For the purpose of determining vacation days taken under Article 22, the eighty (80) hours shall be considered as ten (10) vacation days taken.

Statutory holidays falling within the project period will be held in abeyance and taken off after the completion of the project at a time that is mutually agreed between the employee and the Supervisor. All Statutory holidays must normally be taken before the end of the Vacation Year, December 31st. If due to the exigencies of the Corporation's operations or if illness or accident prevents the employee from taking these holidays, as specified above, then the employee will be paid an eight (8) hour day's pay at his/her regular rate in lieu of the holidays not taken.

In the event that employees are unable to be brought back to their normal headquarters for the designated weekends under this clause because of circumstances beyond the control of the Corporation, the employees will continue working the basic normal eight (8) hours daily and be compensated at the applicable overtime rates.

Travel time involved in bringing employees back to their normal headquarters and return to the jobsite will be in accordance with Clause 19.05(d).

When two (2) or more crews are working on the same project and all the crews are away from normal headquarters, then they must work the same schedule. Notwithstanding the foregoing, this schedule may be made available to employees resident of the area, provided they are required to work on the same project.

Notwithstanding Clause 16.07, the employee will be eligible to receive an overtime meal after working in excess of four (4) continuous hours overtime after the normal ten (10) hour day.

- 19.10 Except as provided in Clauses 19.05, 19.07 and 19.09, in the case where circumstances beyond the control of the Corporation make it impossible to travel

employees back to their normal headquarters for the week-end, employees will be paid eight (8) hours straight time pay.

19.11 When an employee is required to travel and stay overnight on a normal workday, and the employee so affected was not given a minimum of sixteen (16) hours notice, they will be paid one (1) hour at overtime rates for the first overnight stay only. This article only applies in situations of planned, routine work assignments and is not applicable in callout overtime situations.

19.12 Extensive Overnight Absences: The intent of this provision is to recognize the disruption and inconvenience resulting from extensive occurrences of overnight absences from home.

Employees who have accumulated in excess of eighty (80) overnight absences per calendar year will be paid a one-time lump sum of \$500/year in first quarter of the following year. If the employee has accumulated in excess of one-hundred and twenty (120) nights in the same calendar year, an additional \$500 will be paid for total of \$1000.

19.13 Travel and Accommodations for Converter Station Operators while on Rotation at Muskrat Falls.

The corporation will arrange air travel for operators travelling to and from Muskrat Falls. To facilitate travel to and from the St. John's Airport the employee will be compensated at a flat rate of \$80 per one way trip.

Travel time to and from Muskrat Falls will form part of the normal work schedule and be included within the normal hours of work.

Travel to and from the HVGB Airport while at Muskrat Falls site will be done using a corporation vehicle. The operator will normally be dropped off and picked up by a co-worker.

The corporation will be responsible for suitable single living quarters for each Technical Operator while on rotation at Muskrat Falls.

## **ARTICLE 20 - INCLEMENT WEATHER**

20.01 If, in the opinion of the Corporation, it is impracticable because of inclement weather, for employees to continue their normal duties, the Corporation may require such employees to perform such other tasks compatible with their trade as may be available or such employees may be instructed in safety methods and procedures and other Corporation policies as may from time to time arise.

20.02 In cases of extreme storm conditions, where notice has been given by Federal, Provincial or Municipal authorities that the streets and highways are not to be travelled, employees shall not have regular pay deducted for inability to report for work.

In such cases, employees shall contact their Supervisor and be available for work should the Corporation make arrangements for transportation to and from their normal place of work. Soldiers Pond Operators who work beyond their normal twelve (12) hour shift, however, shall continue to operate until they are relieved, and shall be compensated at the applicable rates of pay. *(Note: Should Operators at the Muskrat Falls Generation Plant be placed on a twelve (12) hour shift, they will be included here.)*

**ARTICLE 21 - STATUTORY HOLIDAYS**

Also any special non-recurring holidays proclaimed by the Provincial Government.

The two Floating holidays will be taken at the time agreed between the Supervisor and the employee, so that there will be no interruption of operations. These holidays must be taken within the Calendar Year. A newly hired employee in his/her initial calendar year of employment will be entitled to one Floating holiday if hired after June 30, and two Floating holidays if hired prior to June 30th.

21.02 In order to qualify for each of the above Statutory holidays, an employee must have worked on the last working day before and the first working day after the Statutory holiday, unless he/she was on authorized leave with or without pay as defined in Clauses 23.01(b), 02, 03, and 09.

21.03 An employee whose headquarters is in an area where no Civic Holiday is declared, shall be granted a holiday instead on a date to be agreed between the Parties.

- 21.04 When a Statutory holiday is observed on an employee's scheduled day off, except as provided for in Clauses 15.03 and such day is not worked by the employee, he/she shall be paid a day's pay at his/her regular rate in addition to his/her normal pay for that day.
- 21.05 Except as provided in Clauses 15.03 an employee when required to work on a Statutory holiday, or on a day granted in lieu, shall receive compensation for the hours worked at double the regular hourly rate applicable to his/her classification and in addition he/she shall be paid a normal day's pay for the holiday.

**ARTICLE 22 - VACATIONS**

- 22.01 The Vacation Year shall be from the first day of January to the thirty-first day of December in each year, both dates inclusive.

Vacation	1.25 X Number of months
Entitlement	remaining in the Vacation Year from the date of hire
in days.	rounded upwards to the next whole day.

Thereafter the employee will be entitled to annual vacation each year in accordance with the service schedule. Employees will be entitled to working days of vacation based on the number of complete years of service they will have attained at the end of the current Vacation Year.

- 22.03 In the first year of employment, employees will be entitled to receive vacation leave upon satisfactory completion of the probationary period.

- 22.04 The scheduling of vacations shall at all times be expressly subject to the exigencies of the Corporation's operations.
- 22.05 Employees shall take their vacation in the Vacation Year in which they become entitled to same. Employees may request that their vacation be granted in discontinuous periods; however, such periods cannot be less than one-half (1/2) day. Such requests may be approved by the Corporation, subject to the exigencies of its operations. The Corporation agrees to accede to such requests if it is practicable to do so. Subject to Article 37 of the Agreement, vacations not taken as defined above shall be forfeited except that when the exigencies of the Corporation's operations shall have precluded employees from taking their vacation during the applicable Vacation Year, such vacation may be carried over into the next succeeding Vacation Year or be paid therefore at the regular rate applicable to their classification as may be agreed between the Corporation and the employees.
- Notwithstanding the above, by mutual agreement, an employee may carry over up to five (5) days vacation into the next Vacation Year provided the request is made prior to December 31st.
- 22.06 A Statutory holiday, as defined in Clause 21.01, that occurs during an employee's vacation will not be deemed a vacation day. If a Statutory holiday, as defined in Clause 21.01, occurs immediately preceding or succeeding an employee's actual vacation period then the first or last day of that vacation, for the purpose of Clause 21.02, shall be deemed as time worked.
- 22.07 Employees terminating their employment or laid off in the Vacation Year before they have taken vacation shall be paid an amount equal to the value of the days of paid vacation to which they are entitled as of the date of termination.
- For those employees terminating their employment or laid off in the Vacation Year who have taken vacation in excess of entitlement as of the date of termination, the Corporation will recover the wages for that part of vacation taken in excess of entitlement.
- 22.08 An employee who is called back to work during his/her vacation shall receive the applicable overtime rate of pay for the days so worked, and have the vacation days so worked, and if, he/she so desires, the balance of his/her vacation rescheduled at a time mutually agreed between the employee and the Supervisor.
- 22.09 If an employee is ill on the date the vacation is scheduled to start, then, subject to Clause 22.05, the vacation will be rescheduled or carried to the following year if this is not possible to facilitate during the current year. The employee shall submit a doctor's certificate attesting to the necessity thereof.

An employee, while on vacation, will be eligible for sick leave benefits under the following conditions:

- (1) If the employee is hospitalized during his/her vacation period. This may include a convalescence period.
- (2) If the employee suffers a disabling accident which requires a convalescence period.

The employee is required to provide medical proof from the attending physician of the time period involved concerning the hospitalization, accident and convalescence. Such time will then be charged to the employee's sick leave and subject to Clause 22.05, the employee may utilize the resulting vacation credits then remaining at a time suitable to the Corporation.

22.10

An employee who is on sick leave for a consecutive period of greater than four (4) weeks, or is on LTD, will be permitted to carry over excess vacation leave from the year that their illness or disability commenced to the next calendar year, provided it is not possible to facilitate their vacation leave within that calendar year and in such cases:

- (a) A written request indicating the reasons the vacation leave could not be utilized must be submitted to, and approved by, the supervisor and the Human Resources Department;
- (b) Any excess carry over days approved must be utilized prior to December 31<sup>st</sup> of the next calendar year, otherwise, these leave days will be forfeited.

In the event that the position has become redundant and/or the technology of

the position has changed, the employee shall be offered comparable employment, within the area, for which he/she is qualified.

In order to retain coverage under the Corporation's benefits in accordance with Article 25 and 26, with the exception of L.T.D., the employee will be required to pay the premium in whole for the period of his/her absence. He/she shall retain his/her seniority with the Corporation as if he/she had been continuously employed.

- (b) Employees elected by the Union to attend any district, provincial, national, or international convention or labour institute, shall be granted the necessary time off, without pay and without loss of rights established under this Agreement providing a request for such leave is given in writing seven (7) days prior to the date the time off is to commence, and the request is approved by Management.

In case of death of a close relative, an employee shall be granted Bereavement Leave of four (4) consecutive working days (five (5) consecutive calendar days for an employee working 12 hour shifts), beginning on the day of the death, with no loss of pay. The term "close relative" shall be interpreted to mean:

Bereavement Leave as outlined above, that occurs within an employee's vacation period will not be deemed vacation days.

23.03 Sick Leave

- (a) Sick Leave is to provide income continuance when an employee is unable to work due to illness on a regularly scheduled working day or shift. Sick Leave may only be used where an employee does not qualify for any other employee income benefits in which the Corporation participates. For an absence due to sickness or off-the-job accident, an employee's income will be continued at 100% of his/her normal regular hours for the eligibility period of the Corporation's Long Term Disability Plan. The eligibility period is a minimum of 105 calendar days.
- (b) Scheduled visits to physicians, dentists, denturists, chiropractors and optometrists shall be recognized as Sick Leave provided at least two working days advance notice of the appointment is given to the Supervisor. Emergency appointments will be covered under paragraph (c) of this Clause.
- (c) To be eligible for Sick Leave benefits, an employee shall;
  - (i) be required to produce on demand a Corporation approved Attending Physician's Statement fully completed by a qualified medical practitioner.

If the Supervisor cannot be contacted, the employee, or the person calling, must then contact a Supervisor or Superintendent within his/her department. In the case where a Supervisor or Superintendent cannot be contacted, then the Manager, or his/her designate, at the employee's headquarters must be called. The Supervisor, Superintendent, Manager or his/her designate, will be required, at that time, to inform the employee or the person calling whether or not an Attending Physician's Statement is required.

- (d) Present a completed "Request for Sick Leave Compensation" form to the Supervisor immediately on return to work, or in the case of extended illness at the earliest possible date as per paragraph (e). First hiring for new positions excludes replacement of positions that are vacated through attrition and will conclude prior to the fourth unit at the Muskrat Generating Facility being in service.

- 29.03 Permanent employees on layoff status will retain but will not accrue any seniority.
- 29.04 Employees will lose all seniority they have established under Clause 29.02 for any of the following reasons:

If their Bargaining Unit Seniority is equal, then the least Classification Seniority will be the governing factor. If their Classification Seniority is equal, then the least Corporation Seniority will be the governing factor.
  - (b) Employees laid off under Clause 29.05(a) may exercise their Bargaining Unit Seniority to displace the most junior employee in their classification in this Bargaining Unit.
  - (c) Employees laid off under Clauses 29.05(a) or (b) may exercise their Bargaining Unit Seniority to displace the employee with the least Bargaining Unit Seniority within their pay grouping under Schedule A in the geographic location where the employee normally works provided

- (f) Employees whose employment is terminated as a result of displacement as per this Clause will be eligible to receive severance pay in accordance with Article 24.
- (g) When an employee is permanently assigned to a lower paid classification because of displacement under this Clause, the employee shall retain the rate of the classification vacated and that rate will be frozen until such time as the lower classification rate parallels or exceeds the vacated rate.

In addition to the above, these employees will be placed at the top of the recall list for temporary employment in any classification for which they are qualified in the geographic location in which they were regularly employed. Failure to report for temporary employment when so offered will result in the employee being removed from the recall list. In addition, once recalled for temporary

employment these employees must continue in the classification that they were recalled to until their term of employment expires.

- 29.07 As an alternative to layoff and subject to the exigencies of the Corporation's operations, permanent employees who are in the process of being laid-off will be given the opportunity of displacing currently employed temporary or term employees in any classification in the same geographic location provided the employee has the ability and qualifications to perform the work of the employee so displaced.

Overtime will, as far as practical, be equitably distributed among permanent and temporary employees who are assigned as a crew to do a particular job in that classification, section and location. Temporary employees will not be called out to do trouble calls unless permanent employees are not available. Temporary employees performing a particular job during regular work hours will be given the opportunity of continuing that job into overtime hours providing it does not affect an overtime opportunity for a permanent employee working on the same job.

Notwithstanding the above, Construction temporary employees (Senior Line Inspectors and Line Inspectors) engaged on designated construction projects will, as required by the project schedule, be required to work on the holiday and will be paid a Statutory Allowance of eight (8) hours at

his/her regular rate in addition to regular pay for time worked on the holiday.

(d) Article 22 - Vacations

Vacation pay will be earned on the basis of time worked at the rate of 6% of gross earnings and will be paid on each regular pay cheque.

Normally, leave of absence is not extended to temporary employees. However, employees who are employed for extended continuous periods of time in excess of six (6) months may be granted leave, without pay, not to exceed two (2) weeks in any one year. Subject to the approval of the Supervisor, such leave may be granted, provided it does not interfere with work plans or vacation schedules.

(e) Article 23 - Leave

Temporary employees are not eligible for leave under Article 23 with the exception of:

Clause 23.02 - Bereavement Leave;

Clause 23.03 - Sick Leave as per the following: To be eligible for sick leave, a temporary employee must be employed for a cumulative period of twenty (20) working days in each Calendar Year. (h) Article 29 - Seniority

Temporary employees will accrue seniority for the purpose of layoff and recall to temporary employment. Seniority will be the accumulated regular hours of work the employee has in a temporary position. The employee with the most seniority in that specific classification in the geographical location and section where the job exists, will be given the first opportunity to be rehired into that position.

Employees with the least amount of seniority in that specific classification, geographical location and section will be the first to be laid off, it being understood that the employee retained must be able to perform the work.

A temporary employee will lose his/her seniority for any of the following reasons:

- (1) Discharge
- (2) Resignation
- (3) Failure to return to work when called in accordance with the rehire notice. If the employee cannot be reached by telephone, the Corporation shall notify the employee by Registered Mail at his/her last known address, and the employee shall notify the Corporation within seven (7) days of receipt of such notification.
- (4) Laid off for a continuous period of twenty-four (24) months.

Notwithstanding the above, an employee who is contacted for rehire for a job of short duration of less than one (1) continuous week will be permitted to decline without losing seniority.

For the purpose of seniority, approved leave of absence or approved sick leave under this Article will be considered as time worked.

Temporary employees who are not able to work when recalled due to illness or injury are required to submit an Attending Physician Statement to remain eligible for future recall. Employees who subsequently receive medical clearance to return to work, have greater seniority than another employee in the specific classification in the geographic location and section where the job exists, and the employee has recall rights, may displace the most junior employee.

MEMORANDUM OF AGREEMENT

March 3, 2017

Mr. Jabez Lane, Business Manager  
International Brotherhood  
of Electrical Workers (Local 1615)  
230 Park Avenue  
Mount Pearl, NL A1N 1L1

Dear Jabez:

**Re: Job opportunities for existing 1615 members (Hydro) associated with new assets**

The company has heard the union regarding concerns raised that have resulted from the creation of Power Supply (the newly created non-regulated utility) which is a separate and non competing operating division from the regulated utility NL Hydro. The main concern voiced by the union is the potential opportunity for job prospects for regulated Hydro 1615 members especially those in Labrador who may be interested in Muskrat Falls positions that are now under Power Supply.

Firstly, Nalcor Energy remains committed to its relationship with the IBEW and voluntarily recognizing Local 1615 as per its previous commitment outlined in an MOA dated January 2013.

Secondly, the company is committed to promoting opportunities for new positions to the existing members of 1615 (in Hydro) through a fair and open competition process (except where requirements of the IBA supersede this option). The company will give full consideration to candidates who apply and "who are qualified" (as per the job posting) for the first hiring of such positions.

Thirdly, candidates who are existing members of 1615 (Hydro) and who are successful in their job competition and who are awarded one of these new positions, will carry the equivalent bargaining unit seniority they had with Hydro into Power Supply. This is a one-time initial recognition, there is no reciprocity of seniority back to Hydro and this only applies to the first hiring (placements) for such positions and does not apply to replacement of positions vacated through attrition.

We look forward to receiving interest from all qualified candidates for the positions we wish to recognized as IBEW 1615 and encourage interest from the experienced workers within Hydro (1615) who are qualified and who understand our business and share our values.

Sincerely,

John MacIsaac, Executive Vice President, Power Supply

10.05 The Corporation will advise the Union office of job postings, **date of hire for new employees**, promotions, demotions, transfers, resignations, retirements and deaths of employees within this Bargaining Unit.

10.06 The Corporation will also provide new members of the Bargaining Unit with a copy of the current Collective Agreement and will advise them of the names and location of their Shop Stewards.

**In addition, the Corporation shall also provide an opportunity for a Union Representative to contact (or meet, if practical) with the new Employee and welcome them to the Union. The meeting would normally be completed within one (1) hour.**

#### **ARTICLE 11 - GRIEVANCE**

11.01 An employee (or group of employees) who believes he/she has a grievance concerning the meaning, interpretation, application or alleged violation of this Agreement, shall first approach his/her immediate Supervisor and an earnest effort shall be made by both parties to resolve it verbally. The employee, may if he/she so desires, have his/her shop steward present.

11.02 Step 1

If the complaint is not satisfactorily disposed of verbally, the employee shall reduce the complaint to writing on the approved grievance form. The facts surrounding the grievance will be stated on the form along with the particular Article of the Agreement, which is alleged to have been violated.

The employee, or if he/she so desires, his/her shop steward, on his/her behalf, shall present the grievance to the appropriate Manager within fifteen (15) days of the occurrence of the grievance. The Manager shall, within five (5) days of receiving the grievance, meet and discuss the grievance with the Grievor and, if

he/she so desires, his/her Shop Steward. The Manager shall within five (5) days of the meeting communicate his/her answer to the Grievor, in writing, on the form provided, retaining one copy of the form for the Corporation's records.

#### Step 2

If the decision rendered at Step 1 is not satisfactory to the Grievor, the Grievor, or, if **the Grievor** so desires, the Shop Steward on his/her behalf, may within five (5) days of receipt, submit the grievance in writing, to the **HR/LR Lead - Hydro** for further investigation. The **HR/LR Lead - Hydro**, or designate, will, if deemed appropriate, meet and discuss the issues with all applicable parties and after consultation with the appropriate Vice-President, will reply in writing to the Grievor, with a copy to his/her Shop Steward and the Union office, within ten (10) days from the date the grievance was received.

#### Step 3

In the absence of a decision by the **HR/LR Lead – Hydro**, or designate, or if such decision is not satisfactory to the Grievor, the matter may be referred to a Board of Arbitration as hereinafter provided. As an alternative to arbitration, the parties may give consideration to a mediation process.

11.03 In the event that either party hereto fails to comply with the time limits hereinbefore provided, it shall be deemed that in the case of the Grievor, the Corporation's disposition of the grievance has been accepted, and in the case of the Corporation, it shall be deemed that the Grievor shall have the right to immediately proceed to the next step in the Grievance Procedure. Saturdays, Sundays and statutory holidays, recognized herein, shall not be included when determining the time within which any action is to be taken under Articles 11 and 12.

Nothing herein contained shall preclude the parties hereto from extending, by mutual consent, the time limits defined in any step in the Grievance Procedure.

11.04 An employee who is discharged may request a hearing with the Department Manager, or his/her designated representative, within forty-eight (48) working hours on receipt of such notice of discharge.

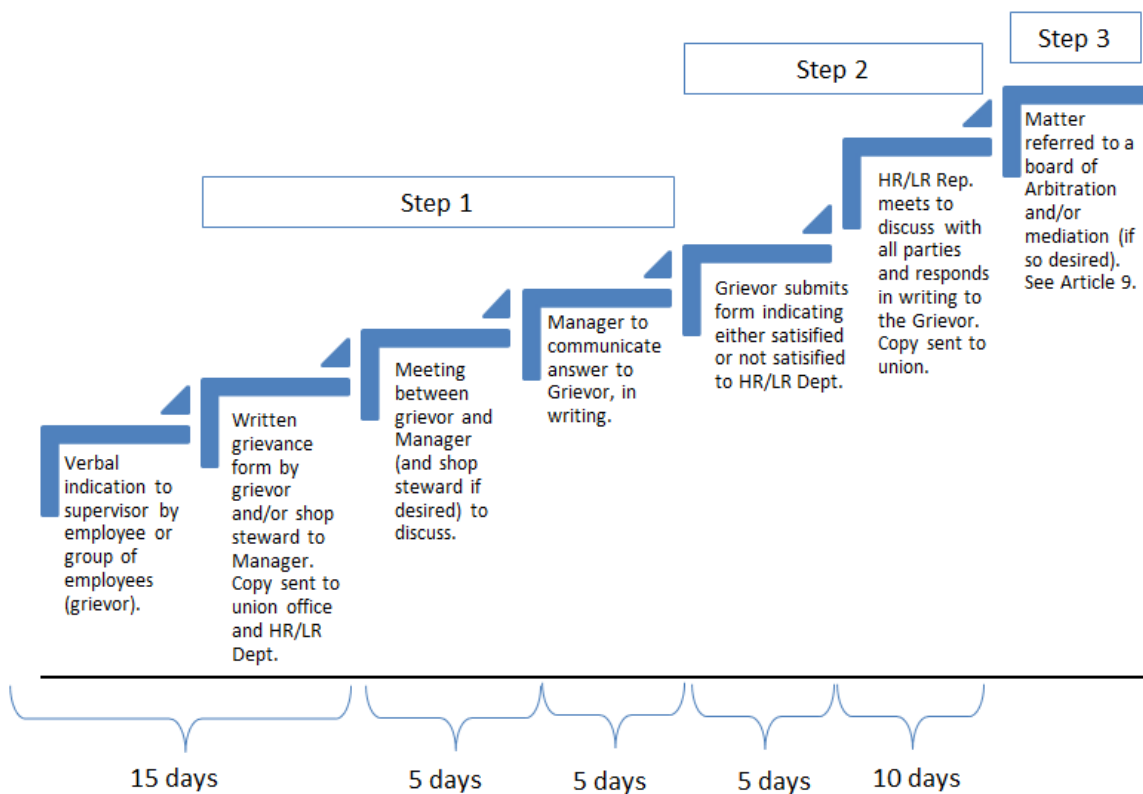

A hearing will be held within three (3) days following receipt of the request referred to in this Clause, and, within three (3) days after such hearing, a decision as to whether the discharge shall be upheld, modified or revoked shall be rendered, in writing, by the Corporation.

The employee may be accompanied at the hearing by a Shop Steward and/or a full-time Union Representative if he/she so desires.

Within three (3) days following receipt of the Corporation's decision, the employee may, if he/she considers that he/she has been unjustly discharged, file a written grievance commencing at Step 2 of the Grievance Procedure.

If the discharge is appealed to arbitration and it is determined that the Corporation did not have just cause for discharge, the employee shall be reinstated, without prejudice, and paid for the time lost, not to exceed ninety (90) working days, to which will be added any number of days that the arbitration hearing was delayed at the request of the Corporation. Such payment shall be at the Employee's straight time regular hourly wage rate for the period determined in arbitration, less any amount earned by him/her between the discharge and return to work.

By mutual agreement between the Parties a Board of Arbitration may be replaced by a single arbitrator. Such requests for a single arbitrator shall not be unreasonably denied.

Request by the Union, in writing, for arbitration must be made to the Corporation within fifteen (15) days of receipt of the Corporation's answer at Step 2 and will give the name and address of the Union's arbitrator. Within ten (10) days of receiving the notice, the Corporation will appoint an arbitrator and give written notice to the Union stating the name and address of the Corporation's arbitrator.

The two arbitrators will, within fifteen (15) days of the appointment of the Corporation's arbitrator, agree on the appointment of a third arbitrator to act as Chairperson. In the event that agreement on the appointment of a Chairperson is not reached within fifteen (15) days, either party may serve notice on the other to appoint or to concur in the appointment of a Chairperson pursuant to Section 5 of the Arbitration Act, Chapter A-14, RSN 1990.

Should the complainant fail to submit the matter to arbitration as hereinbefore provided within the said fifteen (15) days, he/she shall be deemed to have waived all rights of redress in such matter.

12.02 An Arbitration Board shall not have power to amend, cancel, or add to the terms of this Agreement and in rendering a decision shall be bound by the terms of this Agreement. A Board, however, has the right to make monetary awards consistent with that which was lost by the grieved party. Such decision shall not have retroactive effect prior to the date the grievance occurred.

12.03 The charges of the third appointee, who shall be the Chairperson of the Board, shall be borne jointly by the parties and each party shall bear the costs or charges of its own appointee.

question as to whether such classifications are to be included in the Bargaining Unit. ### **ARTICLE 16 - OVERTIME**

- 16.01 Overtime as used herein means that part of the actual working time that an employee is required to work outside normal scheduled hours and is, therefore, subject to compensation at double the regular hourly wage rate and covers:

- (a) Callout - An employee who is called out for work without notice, except those governed by Clause 15.04 after he/she has left his/her place of employment, will receive not less than three (3) hours pay at premium rates.

Callout time shall be calculated from the time an employee is called, allowing up to a maximum of one hour to report at headquarters or job site, and continue until he/she completes such duty. However, where an employee is on a callout and is required to perform other tasks of an emergency nature before returning home, he/she shall be credited with only one callout.

- (b) Planned Overtime - Work performed outside normal scheduled hours for which a minimum of twelve (12) hours advance notification will be given and the employee so affected will be notified prior to the conclusion of his/her workday. Time will be counted from the time the employee arrives at his/her headquarters until he/she finishes work at headquarters.

When an employee works planned overtime on Saturdays, Sundays, or Statutory Holidays, he/she shall receive not less than three (3) hours pay at premium rates.

- (c) Unplanned Overtime - Work performed outside normal scheduled hours for which a minimum of twelve (12) hours advance notification has not been given. However, in such cases the employee shall be given notice as

soon as is practicable under the circumstances. In any case, at least two (2) hours advance notification will be given in order to make personal preparation for this overtime work. Time shall be calculated from the time the employee arrives at his/her headquarters until he/she finishes work at headquarters. However, where an employee is working unplanned overtime he/she will receive not less than three (3) hours pay at premium rates.

- (d) Extension Overtime - Work performed outside normal scheduled hours as a continuation of the normal work day, without interruption, for which prior notice will not be required. Time will be counted from the normal quitting time until the employee finishes work. Notwithstanding the above, where a particular job is to be continued into overtime at the end of the normal workday, the work will not be interrupted in order to preclude the provision of an overtime meal as required by Clause 16.07(d).

- 16.02 At the employee's request, he/she will be permitted to accumulate up to the equivalent of sixty (60) straight time hours in lieu of pay for the overtime worked. The employee may be permitted to use the hours so accumulated as time off during his/her regular day or shift. Such time off will, at all times, be subject to the exigencies of the Corporation's operations and the employee may carry a maximum of forty (40) hours from one calendar year to the next.
- 16.03 For the purpose of computing overtime, holidays and approved sick leave shall be considered as time worked.

However, employees performing a particular job during the regular work hours will be given preference of continuing that job into overtime hours. At least once monthly, the Corporation will post in specified places, a list of overtime worked. If overtime is not shared equally, then employees may be assigned overtime when available. Where present practices have established a shorter interval for overtime posting, that practice will be continued. Effective January 1<sup>st</sup> of each year, the low person on a particular overtime list will be zeroed, with the remaining list being adjusted proportionately.

**New employees and transferred employees to other work locations will be averaged into the overtime list for that section and location.**

**16.07** Meals During Overtime. The purpose of this Clause is to provide sustenance in the form of meals to employees during overtime or emergency work. It is recognized that circumstances may occasionally be such that it is highly impractical to provide meals within the time limits prescribed below. If such circumstances can be foreseen, the Supervisor is empowered to offer the meal prior or subsequent to the time limits. In any event, every effort will be made to provide meals as close as possible to the time they are due.

(a) When an employee performs work under Clause 16.01(a), he/she will be entitled to a meal after working four (4) continuous hours providing overtime is to continue. Additional meals shall be provided on a four (4) hour interval basis after the expiry of the first four (4) hours providing overtime continues after each four (4) hour period thereafter. He/she may be allowed up to thirty (30) minutes to eat a meal, as stated above, at the expiration of each four (4) hour period with no loss of pay. However, no time will be allowed at the expiration of overtime work.

If the callout is prior to the normal workday and less than four (4) hours actually worked, and provided the work continues into the normal workday, he/she shall be entitled to a meal as close as practical to the time he/she starts his/her normal workday. If the meal is provided he/she will be allowed up to thirty (30) minutes to eat the meal.

(b) When an employee performs overtime work under Clause 16.01(b) he/she shall be entitled to a meal after working ten (10) continuous hours (or fourteen (14) hours as per Clause 15.03), and providing overtime is to continue. Additional meals shall be provided on a four (4) hour interval basis after the expiry of the first ten (10) hours (or fourteen (14) hours as per Clause 15.03(o)), providing overtime continues after each four (4) hour period thereafter. He/she may be allowed up to thirty (30) minutes to eat a meal, as stated above, at the expiration of each four (4) hour period with no loss of pay. However, no time will be allowed at the expiration of overtime work.

(c) When an employee performs overtime work under Clause 16.01(c), he/she shall be entitled to a meal after working ten (10) continuous hours providing overtime is to continue. the purpose of providing overtime meals, any notice of less than two (2) hours will be subject to Clause 16.07(a).

- (d) When an employee continues working under Clause 16.01(d), he/she shall be entitled to a meal after working two (2) continuous hours providing overtime is to continue. Additional meals shall be provided on a four (4) hour interval basis after the expiry of the first two (2) hours providing overtime continues after each four (4) hour period thereafter. He/she may be allowed up to thirty (30) minutes to eat a meal, as stated above, at the expiration of the first two (2) hours and each four (4) hour period thereafter with no loss of pay. However, no time will be allowed at the expiration of overtime work.
- (e) Effective **April 1, 2014** if the meal cannot be provided the employee will be paid **\$18.50** in lieu of the meal.
- (f) If an employee is not eligible for a meal under Clause 16.07 a, b, c & d, then an employee who works planned or unplanned overtime prior to the start of the regular day and continues working extension overtime at the end of the regular day and the combination of continuous regular hours and overtime hours exceed ten (10) (or fourteen (14) hours as per Clause 15.03), the employee will be entitled to an overtime meal.
- (g) Notwithstanding anything written in Clause 16.07, an employee will not, under any circumstances, be eligible to receive both overtime meals or payment in lieu, and per diem travel expenses concurrently. Therefore, when an employee is eligible for travel expenses he/she must claim the applicable per diem rates as per Article 31. Clause 16.07 will apply only where the per diem rates are not applicable.

If any portion of the eight (8) hours occurs within his/her regular hours of work, he/she will be paid, for that time so occurring, at regular straight time rates.
- 17.02 Notwithstanding the above, where circumstances permit, the Corporation will make every reasonable effort to grant an eight (8) hour rest period to an employee who has worked for fourteen (14) hours in a twenty-four (24) hour period. If said eight (8) hours or a portion thereof occurs within the employee's next scheduled regular eight (8) hours of work, that time so occurring shall, for

pay purposes, be considered as time worked.

- 17.03 It is understood that in the case of an emergency work, as per Clause 3.10, it may not be possible to comply fully with the above, however, the major consideration must be the safety of the employee.
- 17.04 This Article shall not apply to employees who are working in accordance with accepted shift schedules.
- 17.05 Notwithstanding Clauses 17.01 and 17.02, if the employee is unable to be relieved for the eight (8) hour rest period, he/she shall be paid at overtime rates until so relieved.

The person on Standby for a specific location/area will be the first person called for the specific location/area and are not necessarily the lowest on the overtime list. If no person volunteers, the Standby assignment will be rotated among qualified persons in the location/area where Standby is required, beginning with least senior employee. Overtime lists will be updated bi-weekly. Standby assignment for Exploits Generation will be based on the overtime distribution as per the supplemental agreement.

Employees will have the right to refuse standby after serving six (6) instances of Standby in a calendar year. Employees will not have to perform Standby on two (2) consecutive calendar weekends.

Employees who are on Standby and are required to respond to work will be paid as per Article 16.01 (a). Standby pay will not be reduced by actual call-out overtime hours worked.

**18.03** Notice and assignment for planned Standby will be given after an operational risk is identified and before the end of the scheduled work day, where possible. Periods of Standby durations will typically last as long as the significant operational risk exists. Standby will not be paid during scheduled working hours.

  - (b) Employees who are eligible for a bi-weekly trip to their normal headquarters in accordance with paragraph (a), may have their basic hours of work established on a ten (10) consecutive day basis at eight (8) hours a day, provided it is mutually agreed between the majority of the group or crew concerned and the Supervisor.
  - (c) Notwithstanding the provisions of this Clause, with mutual agreement between the majority of the group or crew concerned and the Supervisor, employees who are required to work away from their normal headquarters for any period of time which involves weekends, may have their defined normal work week changed to a period of fourteen (14) consecutive days of ten (10) consecutive days on at eight (8) hours a day and four (4) consecutive days off. For the purpose of the determination of this period, the commencement day will be Monday of the first week.
  - (d) An employee who is eligible for a bi-weekly trip to his/her normal headquarters in accordance with paragraph (a) and (c) will be allowed the necessary travelling time up to four (4) hours to be paid at his/her normal straight time hourly rate for each one-way trip.   - (e) In the case where circumstances beyond the control of the Corporation makes it impossible to travel the employees back to their normal headquarters on the designated weekends under this Clause, the employee will continue working basic normal working hours on the days so occurring and be paid applicable overtime rates.

19.06 It is understood that any combination of hours worked in excess of 8 hours in any one day or forty (40) hours in any one week under Clauses 19.04, 19.05 and 19.09 will be used solely as time off in lieu of pay, hour for hour, and will not, under any circumstances be subject to overtime under Article 16.

For the purpose of the determination of this period, the commencement day will be on the first day of the ten (10) hour schedule.

In order to work the above schedule, the job, in the estimation of the Supervisor, must be able to be performed practically and reasonably within the ten (10) hour day. The decision to work this schedule must be made prior to leaving

headquarters and must be for the duration of the project. This work schedule may be requested by either party, however, the working of the schedule will be by mutual agreement between the majority of the crew concerned and the Supervisor.

Vacations requested to be taken during the project must be scheduled prior to commencing the project and will be taken in periods of eighty (80) hours. For the purpose of determining vacation days taken under Article 22, the eighty (80) hours shall be considered as ten (10) vacation days taken.

Statutory holidays falling within the project period will be held in abeyance and taken off after the completion of the project at a time that is mutually agreed between the employee and the Supervisor. All Statutory holidays must normally be taken before the end of the Vacation Year, December 31st. If due to the exigencies of the Corporation's operations or if illness or accident prevents the employee from taking these holidays, as specified above, then the employee will be paid an eight (8) hour day's pay at his/her regular rate in lieu of the holidays not taken.

In the event that employees are unable to be brought back to their normal headquarters for the designated weekends under this clause because of circumstances beyond the control of the Corporation, the employees will continue working the basic normal eight (8) hours daily and be compensated at the applicable overtime rates.

Travel time involved in bringing employees back to their normal headquarters and return to the jobsite will be in accordance with Clause 19.05(d).

When two (2) or more crews are working on the same project and all the crews are away from normal headquarters, then they must work the same schedule. 19.11 When an employee is required to travel and stay overnight on a normal workday, and the employee so affected was not given a minimum of sixteen (16) hours

notice, they will be paid one (1) hour at overtime rates for the first overnight stay only. This article only applies in situations of planned, routine work assignments and is not applicable in callout overtime situations.

**ARTICLE 20 - INCLEMENT WEATHER**

20.01 If, in the opinion of the Corporation, it is impracticable because of inclement weather, for employees to continue their normal duties, the Corporation may require such employees to perform such other tasks compatible with their trade as may be available or such employees may be instructed in safety methods and procedures and other Corporation policies as may from time to time arise.

20.02 In cases of extreme storm conditions, where notice has been given by **Federal**, Provincial or Municipal authorities that the streets and highways are not to be travelled, employees shall not have regular pay deducted for inability to report for work.

In such cases, employees shall contact their Supervisor and be available for work should the Corporation make arrangements for transportation to and from their normal place of work. Hydro Generation, **Exploits Generation**, Thermal Generation and the Energy Control Center Operators who work beyond their normal twelve (12) hour shift, however, shall continue to operate until they are relieved, and shall be compensated at the applicable rates of pay.

**ARTICLE 21 - STATUTORY HOLIDAYS**

21.01 Subject to Clause 21.02, the Corporation shall designate a date to be observed as a paid holiday in recognition of each of the following:

New Year's Day	Labour Day	2 Floating holidays

Victoria Day	Remembrance Day	
Discovery Day	½ day Christmas Eve	

Dominion Day	Christmas Day
July Twelfth	Boxing Day
Civic Holiday	½ day New Year's Eve

Also any special non-recurring holidays proclaimed by the Provincial Government.

The two Floating holidays will be taken at the time agreed between the Supervisor and the employee, so that there will be no interruption of operations. These holidays must be taken within the Calendar Year. A newly hired employee in his/her initial calendar year of employment will be entitled to one Floating holiday if hired after June 30, and two Floating holidays if hired prior to June 30th.

- 21.02 In order to qualify for each of the above Statutory holidays, an employee must have worked on the last working day before and the first working day after the Statutory holiday, unless he/she was on authorized leave with or without pay as defined in Clauses 23.01(b), 02, 03, and 09.
- 21.03 An employee whose headquarters is in an area where no Civic Holiday is declared, shall be granted a holiday instead on a date to be agreed between the Parties.
- 21.04 When a Statutory holiday is observed on an employee's scheduled day off, except as provided for in Clauses 15.03 and 15.04 and such day is not worked by the employee, he/she shall be paid a day's pay at his/her regular rate in addition to his/her normal pay for that day.
- 21.05 Except as provided in Clauses 15.03 and 15.04 an employee when required to work on a Statutory holiday, or on a day granted in lieu, shall receive compensation for the hours worked at double the regular hourly rate applicable to his/her classification and in addition he/she shall be paid a normal day's pay for the holiday.

**ARTICLE 22 - VACATIONS**

- 22.01 The Vacation Year shall be from the first day of January to the thirty-first day of December in each year, both dates inclusive.
- 22.02 Each employee will receive an annual vacation with pay in accordance with years of continuous employment as follows:

Service	Vacation
1 - 4 years	15 days
5 - 9 years	17 days
10 - 14 years	23 days
15 - 19 years	26 days
20 – 24 years	27 days
25 and succeeding	28 days

For the purposes of this clause, one vacation day is equal to eight (8) hours.

Subject to Clause 22.03, employees during their first year of employment shall receive working days of vacation with pay computed in accordance with the following formula:

Vacation Entitlement in days.	1.25 X Number of months remaining in the Vacation Year from the date of hire rounded upwards to the next whole day.
-------------------------------	---

Thereafter the employee will be entitled to annual vacation each year in accordance with the service schedule. Employees will be entitled to working days of vacation based on the number of complete years of service they will have attained at the end of the current Vacation Year.

- 22.03 In the first year of employment, employees will be entitled to receive vacation leave upon satisfactory completion of the probationary period.
- 22.04 The scheduling of vacations shall at all times be expressly subject to the exigencies of the Corporation's operations.
- 22.05 Employees shall take their vacation in the Vacation Year in which they become entitled to same. Employees may request that their vacation be granted in discontinuous periods; however, such periods cannot be less than one-half (1/2) day. Such requests may be approved by the Corporation, subject to the exigencies of its operations. The Corporation agrees to accede to such requests if it is practicable to do so. Subject to Article 37 of the Agreement, vacations not taken as defined above shall be forfeited except that when the exigencies of the Corporation's operations shall have precluded employees from taking their vacation during the applicable Vacation Year, such vacation may be carried over into the next succeeding Vacation Year or be paid therefore at the regular rate applicable to their classification as may be agreed between the Corporation and the employees.

Notwithstanding the above, by mutual agreement, an employee may carry over up to five (5) days vacation into the next Vacation Year provided the request is

made prior to December 31st.

22.06 A Statutory holiday, as defined in Clause 21.01, that occurs during an employee's vacation will not be deemed a vacation day. If a Statutory holiday, as defined in Clause 21.01, occurs immediately preceding or succeeding an employee's actual vacation period then the first or last day of that vacation, for the purpose of Clause 21.02, shall be deemed as time worked.

22.07 Employees terminating their employment or laid off in the Vacation Year before they have taken vacation shall be paid an amount equal to the value of the days of paid vacation to which they are entitled as of the date of termination.

For those employees terminating their employment or laid off in the Vacation Year who have taken vacation in excess of entitlement as of the date of termination, the Corporation will recover the wages for that part of vacation taken in excess of entitlement.

22.08 An employee who is called back to work during his/her vacation shall receive the applicable overtime rate of pay for the days so worked, and have the vacation days so worked, and if, he/she so desires, the balance of his/her vacation rescheduled at a time mutually agreed between the employee and the Supervisor.

22.09 If an employee is ill on the date the vacation is scheduled to start, then, subject to Clause 22.05, the vacation will be rescheduled **or carried to the following year if this is not possible to facilitate during the current year**. The employee shall submit a doctor's certificate attesting to the necessity thereof.

An employee, while on vacation, will be eligible for sick leave benefits under the following conditions:

- (1) If the employee is hospitalized during his/her vacation period. This may include a convalescence period.
- (2) If the employee suffers a disabling accident which requires a convalescence period.

The employee is required to provide medical proof from the attending physician of the time period involved concerning the hospitalization, accident and convalescence. Such time will then be charged to the employee's sick leave and subject to Clause 22.05, the employee may utilize the resulting vacation credits then remaining at a time suitable to the Corporation.

22.10 An employee who is on sick leave for a consecutive period of greater than four (4) weeks, or is on LTD, will be permitted to carry over excess vacation leave

from the year that their illness or disability commenced to the next calendar year, provided it is not possible to facilitate their vacation leave within that calendar year and in such cases:

- (a) A written request indicating the reasons the vacation leave could not be utilized must be submitted to, and approved by, the supervisor and the Human Resources Department;
- (b) Any excess carry over days approved must be utilized prior to December 31<sup>st</sup> of the next calendar year, otherwise, these leave days will be forfeited.

In the event that the position has become redundant and/or the technology of the position has changed, the employee shall be offered comparable employment, within the area, for which he/she is qualified.

In order to retain coverage under the Corporation's benefits in accordance with Article 25 and 26, with the exception of L.T.D., the employee will be required to pay the premium in whole for the period of his/her absence. He/she shall retain his/her seniority with the Corporation as if he/she had been continuously employed.

- (a) Sick Leave is to provide income continuance when an employee is unable to work due to illness on a regularly scheduled working day or shift. Sick Leave may only be used where an employee does not qualify for any other employee income benefits in which the Corporation participates. For an absence due to sickness or off-the-job accident, an employee's income will be continued at 100% of his/her normal regular hours for the eligibility period of the Corporation's Long Term Disability Plan. The eligibility period is a minimum of 105 calendar days.

If the Supervisor cannot be contacted, the employee, or the person calling, must then contact a Supervisor or Superintendent within his/her department. In the case where a Supervisor or Superintendent cannot be contacted, then the Manager, or his/her designate, at the employee's headquarters must be called. The Supervisor, Superintendent, Manager or his/her designate, will be required, at that time, to inform the employee or the person calling whether or not an Attending Physician's Statement is required.

If the illness is of such a nature that the employee is reluctant to present the medical certificate to the Supervisor, then the certificate can be given to the Supervisor in a sealed envelope addressed to the Occupational Health Nurse.
- (e) In the case where an employee's disability extends beyond the end of the pay period in which he/she became disabled, he/she may be conditionally paid up to the end of that pay period, with the understanding that these paid days will be deducted if the conditions outlined above are not met. The Supervisor reserves the right to require an employee to commence Maternity Leave prior to the time specified above if, after medical examination, it is found that the state of her health becomes incompatible with the requirements of her job.

An employee may be awarded Sick Leave for illness that is a result of or may be associated with pregnancy prior to the scheduled commencement date of Maternity leave or birth of the child, whichever occurs first.

- (a) Bargaining Unit
- (b) Classification
- (c) Corporation

These three types of seniority are defined as follows:

- (a) Bargaining Unit Seniority is the total length of permanent employment an employee has with the Corporation in any classification covered under this unit.
- (b) Classification Seniority is the total length of permanent employment an employee has with the Corporation within a classification.
- (c) Corporation Seniority is the total length of permanent employment an employee has with the Corporation from the date recognized as the original date of hiring.

- 29.03 Permanent employees on layoff status will retain but will not accrue any seniority.

- 29.04 Employees will lose all seniority they have established under Clause 29.02 for any of the following reasons:

- (a) Resignation.
- (b) Discharge for cause.
- (c) Failure to return to work in accordance with recall notice.

- (e) Received severance compensation under Clause 24.01 or 29.07.
- (f) An employee will lose Bargaining Unit and Classification Seniority when transferred to a non-union position.

29.05

- (a) In the event of layoff, employees will be laid off in the reverse order of their Bargaining Unit Seniority within the affected classification, section and geographic location in which the employees are regularly employed. If their Bargaining Unit Seniority is equal, then the least Classification Seniority will be the governing factor. If their Classification Seniority is equal, then the least Corporation Seniority will be the governing factor.
- (b) Employees laid off under Clause 29.05(a) may exercise their Bargaining Unit Seniority to displace the most junior employee in their classification in this Bargaining Unit.
- (c) Employees laid off under Clauses 29.05(a) or (b) may exercise their Bargaining Unit Seniority to displace the employee with the least Bargaining Unit Seniority within their pay grouping under Schedule A in the geographic location where the employee normally works provided the employee meets the requirements of the Standard Job Posting for the classification of the employee so displaced.
- (d) Employees laid off under Clauses 29.05(a), (b), or (c) may exercise their Bargaining Unit Seniority to displace the employee with the least Bargaining Unit Seniority below their pay grouping under Schedule A in the geographic location where the employee normally works provided the employee meets the requirements of the Standard Job Posting for the classification of the employee so displaced.
- (e) For the purpose of layoff under Clause 29.05(a), (b), (c), or (d) the following classifications will be grouped in the Operations Sections as follows:

Should such an employee wish to be considered for recall for a vacancy in a permanent position in other than their own classification they must so advise the Labour Relations Department.

In addition to the above, these employees will be placed at the top of the recall list for temporary employment in any classification for which they are qualified in the geographic location in which they were regularly employed. Failure to report for temporary employment when so offered will result in the employee being removed from the recall list. In addition, once recalled for temporary employment these employees must continue in the classification that they were recalled to until their term of employment expires.

29.07 As an alternative to layoff and subject to the exigencies of the Corporation's operations, permanent employees who are in the process of being laid-off will be given the opportunity of displacing currently employed temporary or term employees in any classification in the same geographic location provided the employee has the ability and qualifications to perform the work of the employee so displaced.

RE: Reporting locations for Remote Hydro Plant Personnel

Dear Mr. Lane:

This letter sets forth our understanding with regard to the above.

Because of the distances involved in accessing the Remote Hydro Plants, for all personnel whose normal headquarters is either the Hinds Lake, Cat Arm, Upper Salmon, Granite Canal, and Paradise River plants the physical location for the purposes of starting and quitting times per Clause 15.02 will be at Reporting Points as outlined below:

Hinds Lake: The Reporting Point is **the beginning of the Plant Access Road (formerly known as “Samms Farm”)**. Personnel will be expected to be at the Reporting Point at **the start time for the scheduled work hours** and **the end time for the scheduled work hours** respectively at which point transportation will be provided to the plant site. Normal travel time to the plant is expected to be fifteen (15) minutes each way. Personnel **who** normally **report** to Cat Arm who are required to report to Hinds Lake will be **provided up to one (1) hour travel time on company time between home and the Hinds Lake Reporting Point at the start and end of the workday.**

Cat Arm: The Reporting Point is the **beginning of the Plant Access Road (currently the “Service building”)**. Personnel will be expected to be at the Reporting Point at **the start time for the schedule work hours** and **the end time for the scheduled work hours** respectively at which point transportation will be provided to the plant site. Normal travel time to the plant is expected to be thirty (30) minutes each way in Summer and one (1) hour each way in Winter. Personnel **who** normally **report** to Hinds Lake who are required to report to Cat Arm will be **provided up to one (1) hour travel time on company time between home and the Cat Arm Reporting Point at the start and end of the workday.**

Upper Salmon, **Paradise River**, and Granite Canal: The Reporting Point is the Bay d’Espoir Plant. Personnel will be expected to be at the Reporting Point at **the start time for scheduled work hours** and **the end time for the scheduled work hours** respectively. In the event that work has already been scheduled for these personnel, it is understood that they may leave and return to their residence at **the start time for the scheduled work hours** and **the end time for the scheduled work hours** respectively and proceed directly to/from the remote Plant.

REF: Exploits Generation Employees  
(Recognition of Special Terms and Supplemental Document)

Dear Mr. Lane:

This letter will confirm our understanding and agreement regarding special provisions for Exploits Generation and in recognition of preserving certain historical benefits or practices for a specific group of employees.

The intent of this letter is to ensure the provision of benefits no less than that outlined in Schedule A of the Memorandum of Agreement (MOA) dated December 23, 2013 and the Amending Memorandum dated December 24, 2013 between IBEW Local 1615 and IBEW Local 512 and Newfoundland and Labrador Hydro.

It is agreed that the Company will maintain a "Supplemental Document" outlining the special terms and conditions noted within the MOA and that is specific to Exploits Generation employees for the purpose of providing a reference document outlining the special provisions and/or differences to terms outlined in the Collective Agreement.

This Letter of Understanding and the provisions outlined within the Supplemental document dated December 3, 2014, will expire when there are no qualifying members remaining actively employed (e.g., all members are retired). It is recognized that the Memorandum of Agreement concerning supernumerary shifts is an independent document.

Otherwise, terms and conditions for members of Exploits Generation are as per the collective agreement.

Yours truly,

**Letter of Understanding  
Alternate Hours of Work Bay D'Espoir Hydro Generation Plant**

Dear Bob:

The following outlines our agreement regarding the implementation of an alternate shift schedule consisting of four ten (10) hour days for non-shift employees in both the Office Workers and Operations Bargaining Units working in Hydro Generation in Bay D'Espoir.

1. The four ten (10) hour shifts will be scheduled from Monday to Thursday.
2. Shifts will normally be scheduled from 7:00 a.m. to 5:00 p.m. unless otherwise agreed between the parties. Employees and Supervisors/Managers are encouraged to explore alternate work times if required, however, any change will be communicated to both the Company (Manager of Labour Relations) and Union (Business Manager).
3. The decision to move to the alternate four (4) - ten (10) hour shift schedule rests with each section in the plant. To move to this schedule the majority of employees must be in agreement and such change approved by the Supervisor.
4. From time to time for operational reasons or for meetings, conferences or training; the four (4) ten hour shift schedule for any given week may be changed to five (5) days of eight (8) hour shifts. Such changes will be communicated to employees through their posted schedule by Friday of the week prior to the change.
5. For employees working this alternate shift, annual vacation entitlement will be converted into hours. Each scheduled ten (10) hour shift taken as vacation will

result in ten (10) hours being deducted from the total entitlement. All other terms of Article 22 of the Operations Agreement or Article 15 of the Office Workers Agreement remain in effect.

6. Family responsibility leave per Article 23.09 of the Operations Agreement and Article 16.09 of the Office Workers Agreement may be taken in hourly increments to the maximum number of hours specified within the article.
7. An employee may qualify for an overtime meal when he/she works beyond his/her 5:00 p.m. scheduled end time unless the hours of work have been changed per #2 above.
8. Employees will work five (5) days of eight (8) hour for any week that includes a Statutory Holiday; including Floating holidays, as outlined in Articles 21 and 14 respectively.
9. All other terms and conditions of the Operations or Office Workers collective agreement continue to apply.

This alternate shift schedule will continue to be monitored on a regular basis to ensure that safety, operational efficiency, employee satisfaction, service to the public and cost remain at an acceptable level.

Either the Company or the Union may terminate this agreement shifts and revert to the hours of work outlined in Article 15.02 (a) for the Operations Agreement and 12.03 for the Office Workers Agreement by provision of thirty (30) days written notice.

Sincerely,

Debbie Molloy
