

1 **Re: D-3, Install Unit 1 Cold Reheat Condensate Drains and High Pressure Heater Trip**

2 **Level, Holyrood, \$191,600**

3 Q. Since, according to the copy of the FM Global Recommendations provided,

4 Hydro has indicated that this work will be scheduled for 2008, what are the

5 possible implications of undertaking this work in 2009 for Unit 1, 2010 for Unit

6 2 and 2011 for Unit 3?

7

8

9 A. Hydro will continue to manually monitor the existing systems and continue to

10 accept the risk associated with the present condition as described in the

11 proposal.
