

1 Q. **COS Study**

2 **Re: NP-NLH-99 (Rev-1 and Rev-2)**

3 Preamble:

4 The RFI requested detailed reasons (and related dollar impacts) for the  
5 annual changes in the rural deficit for each of the Provincial electric  
6 systems. Information is presented for each of four systems (Island  
7 Interconnected, Island Isolated, Labrador Isolated and L'Anse au Loup), but  
8 no information is presented for the Labrador Interconnected system.  
9 NP-NLH-99 rev. 1, Att. 1 provided a Revenue Requirement Variance  
10 Analysis for the years 2007 through 2013, for four NLH systems (Island  
11 Interconnected, Island Isolated, Labrador Isolated and L'anse au Loup). NP-  
12 NLH-99 rev. 2 Att. 1 presents the Rural Deficit Reports for each year 2007  
13 — 2013, but does not include an updated Revenue Requirement Variance  
14 Analysis.

15 Please provide an updated Revenue Requirement Variance Analysis similar to the  
16 one presented in NP-NLH-99 rev. 1, Att. 1, and provide similar data for the Labrador  
17 Interconnected system.

19

20 A. Hydro submits that this request is unduly onerous and requests information which  
21 is beyond that which is relevant to the issues at hand. The time, effort, and expense  
22 involved in the compilation of the requested information is not warranted by or  
23 proportional to the relevance, if any, of the information sought, by the significance  
24 of that information in the proceeding, or by the probative value of the results.
