

Undertaking 61

Undertake to provide the status of Hardwoods.

As indicated in Hydro's Daily Island Supply and Demand Report, filed with the Board on October 20, 2015, Hardwoods is currently available for 38 MW. As noted in the Winter Readiness report, it is scheduled to have all winter readiness activities completed by December 1, 2015. Hydro does file a report with the Board on its Island supply and demand on a daily basis.
