Subject: Re: NLH Amended GRA - To Parties - Schedule - Vale's Application for an Order Compelling NLH to Fully Respond to Certain RFIs

Ms. Blundon,

Hydro is presently discussing with Vale the subject matter of Vale's Application with a view to resolving to mutual satisfaction the form and content of the responses to the RFIs under dispute. At this time, it is anticipated that the matter could be resolved within a few working days.

We therefore respectfully request a brief extension to June 10 as the date upon which Hydro would need to file a Reply to Vale's Application.
