

1 Q. (April 10, 2014 report entitled Supply and Install 100 MW (Nominal) of Combustion
2 Turbine Generation) It is stated (page 9) "*Hydro is proposing to negotiate*
3 *interruptible contracts with major industrial customers at least for 2014-2015*". Will
4 Hydro file these interruptible contracts for Board approval and how does Hydro
5 propose that the costs of these contracts be recovered?

6

7

8 A. Hydro will determine the appropriate process for approval of interruptible
9 arrangements based on the ultimate form of arrangements contemplated. Hydro
10 will either negotiate contracts with Industrial Customers and bring the contracts to
11 the Board for approval or bring an interruptible rate offering to the Board for
12 approval and have Industrial Customers apply under that offering. Hydro will be
13 presenting options for cost recovery at that time.
