

1 Q. In Order No. P.U. 16(2014), the Board ordered as follows (page 4, lines 31 to 34)  
2 *"Hydro 's proposal to proceed with the purchase and installation of 100 MW of*  
3 *combustion turbine generation at Holyrood Thermal Generating Station is*  
4 *approved, with the issues of costs and cost recovery to be determined by the Board*  
5 *in a future Order".* What cost and cost recovery mechanism is Hydro proposing for  
6 the 100 MW combustion turbine project?

7  
8  
9 A. The installation of this combustion turbine generation is scheduled for completion  
10 in 2014. Therefore, Hydro will be including the capital cost of the combustion  
11 turbine generator in the calculation of rate base and test year revenue  
12 requirements for 2014 and 2015 in its Amended General Rate Application to be  
13 filed with the Board in the fall of 2014.
