Cheryl,  
We estimate that approximately 20 minutes would suffice for our presentation.  
Our key points of presentation include  
-Residential demand on system  
-Residential generation – ability to sell back to providers  
-Conservation by design

Cheryl Blundon,

I am inquiring regarding the pre hearing conference; we K & P Contracting Ltd and Heat Seal Limited would like to make a presentation at the pre hearing conference. What information is required for us to be given time for that and/or is there a form required for such.

Regards
