Cc: NL Public Utilities Board
Subject: PUB - Mr. Brad Canbana - Notice of Phase One Hearing - Board's Investigation and Hearing into Supply Issues and Power Outages on the Island Interconnected system

Mr. Cabana:

As we discussed, the Board has met to review the requests from interested presenters to determine the logistics and timing of the presentations for the Phase One hearing, scheduled to begin on March 30th. The Phase One hearing will deal with issues surrounding the power outages in late 2013 and early 2014 and winter readiness for 2014-2015.

In reviewing your outline it appears that the nature of your presentation falls within the issues to be addressed in Phase Two of the investigation, which relates to adequacy and reliability of supply after Muskrat Falls interconnection.

Phase Two of the investigation is expected to continue throughout 2015 and a further notice inviting public presentations in relation to Phase Two will be published later this year.

I will contact you to discuss logistics and timing once the schedule for the Phase Two Hearing is set.

Cheryl Blundon

Ms. Blundon, I was in St. John's at the Court of Appeal today, so unfortunately I have just received your email now. Thank-you for the reminder.

The outline of my presentation is quite simple. I intend to address the adequacy of our power supply, especially considering extraneous circumstances, such as the enforceability of the Water Management Agreement and the like. I can't see my presentation taking any more than 20-30 minutes. Sincerely, Brad Cabana
