

Available Island System Supply: <sup>5</sup>	1,110	MW	Wednesday, July 11, 2018	18	18	770	770
NLH Island Generation: <sup>4</sup>	785	MW	Thursday, July 12, 2018	17	13	800	800
NLH Island Power Purchases: <sup>6</sup>	130	MW	Friday, July 13, 2018	14	16	805	805
Other Island Generation:	195	MW	Saturday, July 14, 2018	17	15	765	765
ML/LIL Imports:	-	MW	Sunday, July 15, 2018	15	19	765	765
Current St. John's Temperature & Windchill: 21 °C	N/A	°C	Monday, July 16, 2018	19	19	800	800
7-Day Island Peak Demand Forecast:	810	MW	Tuesday, July 17, 2018	19	19	810	810
Supply Notos For July 11, 2018 3							

## Supply Notes For July 11, 2018

At 0700 hours, July 11, 2018, Holyrood Combustion Turbine unavailable due to planned outage (123.5 MW).

1. Generation outages for running and corrective maintenance are included. These are not unusual for power system operations. They generally do not impact customer supply. The power Notes: system operators schedule outages to system equipment whenever possible to coincide with periods when customer demands are low and sufficient supply reserves are available. However, from time to time equipment outages are necessary and reserves may be impacted.

2. Due to the Island System having no synchronous connections to the larger North American grid, when there is a sudden loss of large generating units some customer's load must be interrupted for short periods to bring generation output equal to customer demand. This automatic action of power system protection, referred to as under frequency load shedding, is necessary to ensure the integrity and reliability of system equipment. Under frequency events typically occur 5 to 8 times per year on the Island Interconnected System and the resultant customer load interruptions are generally less than 30 minutes.

3. As of 0800 Hours.

4. Gross output including station service at Holyrood (24.5 MW) and improved NLH hydraulic output due to water levels (35 MW).

5. Gross output from all Island sources (including Note 4).

6. NLH Island Power Purchases include: CBPP Co-Gen, Nalcor Exploits, Rattle Brook, Star Lake, Wind Generation, Vale capacity assistance (when applicable).

7. Adjusted for CBPP, Vale and Praxair interruptible load, Maritime Link and Labrador-Island Link exports and the impact of voltage reduction, when applicable.
