

- 1 Q. Further to CA-NLH-038, what is the status of the dedicated position for NERC  
2 compliance and the status of the plan development to date?  
3  
4
- 5 A. The position dedicated to NERC compliance planning has been filled. Hydro is  
6 presently working with Acumen Engineered Solutions International (AESI) to assess,  
7 and identify any work required to close the technical and administrative gaps  
8 between Hydro's present operating practices and those that would be required for  
9 full compliance with the applicable NERC standards.
