

1 Q. Please refer to the response for PUB-NLH-212 and the Reliability & Availability
2 Assessment of the HVdc Island Link. Has a similar reliability and availability report
3 been completed for the Maritime Transmission Link? If yes, please provide a copy
4 of the report. If no, please provide the date this report will be completed.

6

7 A. The Maritime Link is being constructed by Emera Newfoundland and Labrador after
8 approval for the project was granted by the Nova Scotia Utility and Review Board
9 (UARB). The UARB regulates the reliability, technical design standards, long term
10 operation and management of the Maritime Link. Documents filed with the UARB
11 are accessible at <http://nsuarb.novascotia.ca>.
