

1 Q. Please refer to PUB-NLH-298 regarding the asset management plans for the
2 Labrador Island Link overhead transmission line. Please provide the asset
3 management plans for the Maritime Transmission Link overhead HVdc lines, the
4 HVdc submarine cable, the HVdc converter stations, the electrode lines and the
5 electrodes.

6

7

8 A. Preparation of the asset management plans for the Maritime Link HVdc lines, the
9 submarine cable, the HVdc converter stations, electrode lines, and electrodes is the
10 responsibility of Emera NL, the operator of the Maritime Link. Refer also to Hydro's
11 response to CA-NLH-118.
