

1 Q. **Re: GRK-NLH-021 rev. 1, GRK-NLH-022**

2 Please consider a hypothetical scenario in which reservoir levels are low and both
3 Hydro-Quebec and MFC have indicated the need for high levels of power over the
4 coming months.

5 **In this hypothetical scenario, please explain how energy available in the**
6 **Churchill Falls reservoirs will be apportioned between Hydro-Quebec and MFC**
7 **a) if Hydro-Quebec's interpretation of the Renewal Contract is endorsed by the**
8 **Courts, and b) if Nalcor's interpretation of the Renewal Contract is endorsed by**
9 **the Courts.**
