

1 Q. Please confirm if corrective actions in the Tables 13 through 16 of the Teshmont  
2 Report are based on Teshmont's independent analysis. If not, please explain.

3

4

5 A. Hydro held discussions with Teshmont over the course of the study to assist with  
6 the understanding of the transmission system, system operation, unit dispatch, and  
7 software modeling. Teshmont performed the load flow analysis based on this  
8 direction.

9

10 As the analysis proceeded, Teshmont submitted load flow results and suggested  
11 corrective actions to Hydro for review. Hydro was asked to confirm that corrective  
12 actions did not violate any of Hydro's operating procedures.
