

- 1 Q. Reference: Response to Request for Information NP-NLH-004
2 The response to Request for Information NP-NLH-004 provides graphs on pages 20,
3 21, 36, 37, 44, 45, 46, 47, 48, and 49 showing %Utilization for each as-designed
4 structure under various load cases. Please provide the data used (numerators and
5 denominators) to calculate the % Utilization for each structure in these graphs.
6
7
- 8 A. The design tool (PLS-CADD) provided the utilization directly as a percentage, and
9 numerators and denominators were not extracted to calculate the utilization in the
10 graphs.
11
- 12 Furthermore, Board Order P.U. 13(2015) at Page 7 indicates that the inquiry "does
13 not contemplate assessment or audit of the technical aspects of the design of the
14 transmission line". This appears to go directly to such an issue.
