9 A. Hydro has provided sufficient detail, including the meteorological loading criteria
10 and load cases for the new Bay d’Espoir to Western Avalon 230 kV transmission
11 line, in order to provide for review of risks to the Island Interconnected System

12

13 Hydro understands that this review is not intended to extend to a review,
14 verification, or audit of the detailed engineering work undertaken by Hydro or its
15 consultants for the new Bay d’Espoir to Western Avalon 230 kV transmission line.
16 Hydro is therefore of the view that the specific detailed information requested is
17 not necessary for the Board to conduct the subject review.
