

1 Q. Reference : Response to the Request for Information NP-NLH-005 (Revision 1,  
2 June 3-15), page 1, lines 21-22.

3

4 *“The line is currently planned to be constructed to Hydro’s standard design*  
5 *criteria...”*

6

7 Please provide the ice, wind, and combined ice and wind loadings for 50, 150, and  
8 500 year return periods on the Avalon Peninsula based on *Hydro’s standard design*  
9 *criteria.*

10

11

12 A. Hydro’s standard design criteria do not provide estimates of meteorological loading  
13 for various return periods, and the requested analysis is therefore not available.
