

1 Q. Further to the response to PUB-NLH-210, page 27 of Attachment 1 states that a
2 “Cold Eye Review of Design and Technical Specifications, North Spur Stabilization
3 Works” completed by Hatch recommended additional investigations and analyses.
4 State these recommendations and explain the status of any follow up investigation
5 and analyses as a result of the recommendations.
6
7

8 A. The results of the additional investigations recommended by Hatch were
9 communicated to the Independent Engineer in the following presentation, which is
10 already publicly available. Hydro is providing the following document/link:
