

1 Q. Further to the response to PUB-NLH-488, has Hydro completed its assessment of  
2 the need for additional reactive power compensation in the Bottom Brook area? If  
3 so, what were the conclusions, and please provide a copy of the study report. If not  
4 when will it be completed?

5

6

7 A. The Hydro assessment of the need for additional reactive power compensation at  
8 Bottom Brook is nearing completion. The final report is expected at the end of  
9 November 2015.
