

1 Q. In seeking to mitigate pre-Muskrat Falls supply risks, please describe the extent to
2 which Hydro has considered imports over the Maritime Link and use of recall power
3 over the Labrador Island Link. In the response please explain any efforts taken or
4 planned by Hydro to firm up such potential sources.

5

6

7 A. Imports over the HVdc interconnections were considered in the Energy Supply Risk
8 Assessment, as outlined in section 7.3.1 of the report. Regarding the firming up of
9 imports over the Maritime Link, please refer to Hydro's response to PUB-NLH-620.

10

11 The firming up of the recall power is currently being reviewed.
