

October 15, 2014

Board of Commissioners  
of Public Utilities  
P.O. Box 21040  
120 Torbay Road  
St. John's, NL A1A 5B2

Attention: Ms. Cheryl Blundon  
Director of Corporate Services  
and Board Secretary

Ladies & Gentlemen:

**Re: The Board's Investigation and Hearing into Supply Issues and Power Outages on the Island Interconnected System – Revised Process**

This is further to the Board's letter of October 8<sup>th</sup>, 2014 regarding a revised process for the Board's Investigation and Hearing into Supply Issues and Power Outages on the Island Interconnected System (the "Investigation"). In its letter, the Board indicated that the Investigation will be divided into two phases. Phase One will address the immediate reliability issues for the Island Interconnected system prior to interconnection with Muskrat Falls. Phase Two will address reliability issues after the Muskrat Falls interconnection.

The Board has requested Newfoundland Power to identify any current outstanding information requests that are deemed essential for completion of Phase One of the Investigation. On September 19, 2014 Newfoundland Power submitted Requests for Information NP-NLH-1 to NP-NLH-35 to the Board. These Requests for Information relate to reliability issues after the Muskrat Falls interconnection has been established and are therefore not essential for completion of Phase One of the Investigation.

On October 15, 2014 Newfoundland Power responded to Requests for Information PUB-NP-308 to PUB-NP-311 and CA-NP-016 to CA-NP-024. There are currently no outstanding Requests for Information remaining to be filed by Newfoundland Power relating to the Investigation.

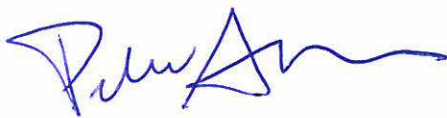

Newfoundland Power observes that the following Requests for Information are currently outstanding and are related to Phase One of the Investigation:

Board of Commissioners of Public Utilities	PUB-NLH-378 to PUB-NLH-380 PUB-NLH-420 PUB-NLH-425 PUB-NLH-427 PUB-NLH-429
Consumer Advocate	CA-NLH-059 to CA-NLH-061
Island Industrial Customers	IC-NLH-017 to IC-NLH-021

The responses to at least some of these appear to be relevant to Phase One of the Investigation.

We trust the foregoing is found to be in order.

Yours very truly,

Peter Alteen, QC  
Vice President  
Regulation & Planning

c. Geoffrey Young  
Newfoundland and Labrador Hydro

Paul Coxworthy  
Stewart McKelvey Stirling Scales
