

IN THE MATTER OF

the *Electrical Power Control Act, 1994*,
SNL 1994, Chapter E-5.1 (the "EPCA")
and the *Public Utilities Act, RSNL 1990*,
Chapter P-47 (the "Act"), as amended;

AND

IN THE MATTER OF

the Board's Investigation and Hearing
into Supply Issues and Power Outages
on the Island Interconnected System.

**CONSUMER ADVOCATE
REQUESTS FOR INFORMATION
CA-NLH-142 to CA-NLH-144
Issued: September 15, 2015**

1 **CA-NLH-142:** Reference responses to CA-NLH 87, 88 and 98, the NERC related reviews and
2 the resulting implementation do not have a completion date. The Labrador and Maritime HVDC
3 transmission systems are scheduled to be commissioned in late 2017. The full commissioning of
4 the Maritime HVDC link will require transmission of power to and from Newfoundland. Will the
5 NERC compliance be completed in time to commission the Maritime Link? If not, please explain
6 the plans to commission the Maritime HVDC Link without the completion of the NERC
7 compliance.

8
9 **CA-NLH-143:** Reference response to CA-NLH-103, the last question was not answered. If
10 Nalcor does not plan to execute support agreements, please estimate the time required to draft
11 and negotiate these agreements when needed to repair a submarine cable.

12
13 **CA-NLH-144:** Reference responses to CA-NLH-117, 118, 119, 120, 121, 124, 125, 126. These
14 responses are all related to information for the Maritime Link, and ultimately to the overall
15 operation of both Labrador and Maritime Links. Hydro's general response to these questions is
16 to ask the parties responsible for the Maritime Link. Please acknowledge that Hydro has
17 reviewed the issues, raised in each of these RFIs, with the Maritime Link project team. Please
18 identify any of the issues that were not reviewed with the Maritime Link project team.
