**ELECTRONIC DISTRIBUTION**

Ms. Cheryl Blundon  
Board Secretary  
Public Utilities Board  
Torbay Road, St. John's

Dear Ms. Blundon;

**RE: Newfoundland and Labrador Hydro Combined Applications – Installation of Diesel Units at Holyrood for the Purposes of Black Starting the Generating Units and Supply, and Install 100 MW (Nominal) of Combustion Turbine Generation – Requests for Comments Hydro's request for a filing extension.**

On June 6, 2014 Hydro gave notice that it wished to postpone the GRA negotiations scheduled for June 9, 2014 and therein cancelled the Public Hearing scheduled for July 9, 2014. The postponement of this application certainly frees up many resources of Hydro and allows the PUB to schedule other matters in this time frame.

For this reason I would be against granting the extension as requested and insist that Hydro deliver whatever responses it can by June 16, 2014 but acknowledging its challenges with the GRA, I would agree to an extension of two more weeks to complete all responses to the application noted above.

An extension to July 25, 2014 would unduly delay the process and given the Board Approval of this Application, such a delay is not in the public interest.

Thank you for asking for my comments on this request.

Sincerely yours,

Danny Dumaresque  
Intervenor
