

1 Q. How many Hydro employees are working with Nalcor on Muskrat Falls commissioning issues and  
2 would any of these employees be involved in the GRA?

3

4

5 A. The number of Newfoundland and Labrador Hydro (“Hydro”) employees who work with Nalcor  
6 on Muskrat Falls commissioning issues varies depending on what type of work is contemplated;  
7 however, any Hydro employee that is working with Nalcor on Muskrat Falls commissioning  
8 issues would have, at most, a minimal role in the preparation of the General Rate Application  
9 (“GRA”). Those Hydro employees with significant roles in GRA preparation are not working with  
10 Nalcor on Muskrat Falls commissioning issues.
