

1 Q. **Reference: Attachment 1- Long-Term Supply for Southern Labrador - Economic and Technical**
2 **Assessment**

3 Has Hydro undertaken any studies, or is Hydro aware of any studies conducted by other parties,
4 to investigate the potential feasibility of wind or solar generation in the vicinity of the four
5 communities being considered for interconnection? If so, please provide the analyses that Hydro
6 has performed and identify the studies performed by other parties if Hydro is aware of any.

7

8

9 A. Please refer to Newfoundland and Labrador Hydro's response to LAB-NLH-015 for information
10 regarding studies which investigate the potential feasibility of renewable generation in isolated
11 communities in Labrador. Please note, however, that these studies are not specific to the four
12 communities being considered for interconnection.
