2 **Computers – 2021)**

3 Hydro states on page C-100 that it operates and maintains approximately 313 desktop
4 computers, schedules replacement on a six-year life cycle and has identified 128 of these
5 desktops for replacement in 2021.

6 In Order Nos. P.U. 6(2020) and P.U. 46(2018) the Board approved Hydro's request to purchase
7 138 desktops in 2020 and 104 desktops in 2019, respectively. Considering the number of
8 desktops replaced in the last two years please reconcile the current request of 128 desktops in
9 comparison to the 313 desktops currently maintained by Hydro and the six-year replacement
10 schedule followed by Hydro.
