

1 Q. **Reference: Evidentiary Update, Page 4**

2 Hydro's revised authorized cost estimate of the Avalon CT is \$995.9 million.

3 a) If there has been a further revision of the estimate, please provide it along with an
4 explanation.

5 b) What are the required transmission and distribution costs associated with the Avalon CT
6 and are they included in the estimate?

7

8

9 A. a) There has been no further estimate revision at this time.

10 b) The required transmission and distribution costs associated with the Avalon Combustion
11 Turbine project are included in the 2025 Build Application cost estimate. The total estimated
12 direct cost for the new terminal station and the integration with the power grid, via
13 Transmission Line TL218, is approximately [REDACTED].
