

1 Q. **Reference:** *Schedule 1: Additions for Load Growth and Customer Interconnection – English*  
2 *Harbour West (2026-2027)*, page 9, lines 9-11.

3 “While Alternative 4 is the least-cost alternative to meet the projected system requirements of  
4 the distribution system as a result of the customer’s request for service, its selection inherently  
5 provides additional capacity on the EHW system beyond that required by the customer.”

6 a) Please quantify the current capacity of the EHW system and the additional capacity that  
7 would be provided on the EHW system beyond that required by the customer.

8 b) Excluding the new customer load, please compare the effective new capacity of the EHW  
9 system to its historical and forecasted capacity requirements.

10  
11  
12 A. Please see response to PUB-NLH-003 and PUB-NLH-005.
