Q.	Reference: Application
Q.	Reference: Application

Please provide a table identifying each project/program in the 2026 capital budget, its cost and the customers that are required to pay for the project; i.e., Island Interconnected, Labrador Interconnected and Rural/Isolated. In cases when more than one customer group is required to pay for a project/program, please identify the share of the cost paid by each.

A. Please refer to CA-NLH-005, Attachment 1, which provides the requested allocation for projects and programs newly proposed in the 2026 Capital Budget Application. Please note that the actual allocation of some programs, such as In-Service Failure programs, is dependent on the location and function of the asset replaced or refurbished, which is not known until the time of execution.
