

1 Q. **Reference: Schedule 7: Capital Programs and Projects, Program 9: Perform Facilities**
2 **Refurbishments (2026)**

3 Given the age of some of the condition assessments, did Hydro consider that additional work or
4 repairs not previously identified may now be required and consider how this will impact the
5 program budget and scope of work?

6
7
8 A. Given the age of the condition assessments, Newfoundland and Labrador Hydro ("Hydro")
9 recognizes that additional work or repairs may now be required. Any newly discovered
10 additional work or repairs will be assessed and prioritized using Hydro's Enterprise Risk
11 Management – Risk Rating while considering risk spend efficiency. Should the additional work
12 items be deemed critical, they will be completed under the Facilities In-Service Failure
13 Allowance established to cover the replacement or refurbishment of failed assets or incipient
14 failures to property requiring immediate action.
