

1 Q. **Reference: Schedule 7: Capital Programs and Projects, Program 9: Perform Facilities**
2 **Refurbishments (2026)**

3 Has Hydro identified which of its remaining facilities will be refurbished in each year from 2027
4 through 2030?

5
6
7 A. Newfoundland and Labrador Hydro (“Hydro”) has tentatively identified which of its remaining
8 facilities will be refurbished in each year from 2027 through 2030. A table with the complete
9 listing of the currently identified work scopes and their proposed execution year is attached to
10 the Perform Facilities Refurbishments (2026) Program as Appendix A.¹ The third column of the
11 table, “Risk Year”, indicates the planned refurbishment year, with the name of the facility to
12 undergo refurbishment noted in the seventh column, “Building”.

13 As noted in the application, current work scopes and asset condition were primarily derived
14 from existing assessments that have been completed on a select number of facilities. Hydro
15 intends to complete condition assessments for its remaining facilities and utilize this information
16 to further develop the scope of the Facilities Refurbishment Program for future applications.
