

- Q. **Reference: Project 6: Relocate Section of Line - TL220 (2026 - 2028)**
- Page 8, Table 4 shows that post implementation impact is reduced from a score of 5 to a score of 3. Explain the factors that have resulted in a reduction in post implementation impact.
- A. The post-implementation impact value of 3 provided in the Relocate Section of Line (2026–2028) – TL220 Project is a typographical error - the value should read as 5. As a result, Table 4 should read as follows:

**Table 4: Risk Scoring Pre- and Post-Implementation**

	<b>Impact</b>	<b>Likelihood</b>	<b>Score</b>
Pre-Implementation	5	3	<b>15</b>
Post-Implementation	5	1	<b>5</b>
	<b>Risk Mitigated</b>		<b>10</b>
	<b>Risk Mitigated per \$1 Million</b>		<b>2.4</b>
