Senior Regulatory Advisor & Board Secretary

Re: 2026 General Rate Application – Responses to Requests for Information

Enclosed, please find Newfoundland and Labrador Hydro's ("Hydro") responses to the following Requests for Information ("RFIs") in relation to the above-mentioned application.

- CA-NLH-225 to CA-NLH-353;
- IIC-NLH-026 to IIC-NLH-039;
- IOC-NLH-024 to IOC-NLH-045;
- NP-NLH-121 to NP-NLH-185;
- PUB-NLH-126 to PUB-NLH-188; and
- LAB-NLH-034 to LAB-NLH-049.

Hydro is also including revisions to certain responses to RFIs filed earlier in the proceeding, in particular:

- CA-NLH-099 (Revision 1);
- LAB-NLH-030 (Revision 1);
- NP-NLH-013 (Revision 1);
- NP-NLH-046 (Revision 1);
- PUB-NLH-005 (Revision 1);
- PUB-NLH-008 (Revision 1); and
- PUB-NLH-019 (Revision 1).

These responses to RFIs are revised to correct or clarify information that has subsequently been determined to contain errors or be unclear.

There is no change to the content of the response to LAB-NLH-030; however, the attachment has been updated with redactions necessary to remove information that should remain confidential. Hydro's revised response to PUB-NLH-005 also contains commercially sensitive information that pertains to Hydro's export prices and has been redacted. Revisions within the confidential version have been highlighted separately to avoid confusion.

Hydro notes that, in addition to the revised responses to LAB-NLH-030 and PUB-NLH-005, several of its current responses to RFIs contain confidential and commercially sensitive information. These include:

- CA-NLH-241;
- CA-NLH-242;
- IIC-NLH-028;
- PUB-NLH-160; and
- PUB-NLH-188.

The information redacted in these responses is generally commercially sensitive information pertaining to Hydro's export prices, which Hydro has redacted consistently with past practice and decisions by the Board of Commissioners of Public Utilities ("Board"). Other responses contain commercially sensitive customer information (IIC-NLH-028) or information that, if released, could pose a cybersecurity risk (PUB-NLH-160).

Hydro requests that the redacted information be kept confidential and not be made publicly available. A version of the responses without redaction is being provided to the Board on a confidential basis; the parties will be provided with a version in which this information has been redacted. Hydro requests that the Board use the redacted versions for posting to its website.

Should you have any questions, please contact the undersigned.

Yours truly,

NEWFOUNDLAND AND LABRADOR HYDRO
