

1 Q. **Reference: Application**

2 Provide a table that compares the approved 2017 GRA forecast coincident peak responsibility,
3 energy, and customer numbers by customer class underpinning the approved 2017 Cost of
4 Service Study to the proposed 2027 Test year. As part of the response, include a column that
5 identifies the material drivers of change.

6

7

8 A. A comparison of the coincident peak responsibilities, energy amounts and customer numbers by
9 customer class is provided in CA-NLH-110, Attachment 1 of this proceeding. An analysis of the
10 main drivers of changes to energy requirements is provided in the response to CA-NLH-016 of
11 this proceeding.
