

1 Q. **Reference: Response to CA-NLH-084, part b**

2 Further to the response to CA-NLH-084, part b, please explain why Hydro is not able to provide
3 Schedules D-I and D-II for the 2028 Forecast to 2030 Forecast period.

4

5

6 A. Newfoundland and Labrador Hydro's ("Hydro") long-term forecast has not yet been fully
7 updated to reflect all assumptions, methodologies, and proposals contained within Hydro's
8 2026 General Rate Application. As a result, the detailed schedules required to prepare Schedules
9 D-I and D-II have not been developed for the 2028 Forecast to 2030 Forecast period.

10 As discussed in Hydro's response to CA-NLH-084 of this proceeding, Hydro has completed
11 specific analyses and calculations to support responses to requests for information requiring
12 forecast information for 2028–2030. These analyses were based on estimates developed for
13 long-term forecasting and planning purposes and were supplemented, where necessary, with
14 targeted calculations to address the specific information requested.
