

1 Q. **Reference: CA-NLH-297**

2 For the capital expenditures identified in CA-NLH-297 above, please explain how the associated
3 revenue requirement would be allocated if the Industrial load underpinning the need, timing or
4 sizing of the investment does not materialize or subsequently materially declines, and identify
5 any contractual, contribution, minimum-load, termination or other mechanism that would
6 prevent the resulting cost from being reallocated to existing customers.

7

8

9 A. Please refer to Newfoundland and Labrador Hydro's response CA-NLH-297 of this proceeding.
