3 Preamble:

4 Hydro proposes a new annual specifically assigned charge of \$33,697 for IOC to recover
5 operating and maintenance costs associated with specifically assigned transmission assets,
6 calculated under the methodology proposed in the 2025 Cost of Service Methodology
7 Application.

8 Confirm that all costs recovered through the specifically assigned charge are excluded from the
9 costs underlying the proposed \$2.00 per kW per month Transmission Demand rate, such that no
10 cost is recovered twice.
