

1 Q. **Reference: NP-NLH-099, Issue Topic: Newfoundland Power Generation Credit.**

2 Please confirm that following Newfoundland Power's generation test, the Newfoundland and
3 Labrador System Operator ("NLSO", which is part of Hydro), sends Newfoundland Power a
4 report, which provides the results of the generation test by unit. If this cannot be confirmed,
5 please explain.

6 Please also confirm that from the report sent by the NLSO, the total demand values for (i)
7 Newfoundland Power's hydraulic units and (ii) Newfoundland Power's thermal units can be
8 determined separately. If this cannot be confirmed, please explain.

9

10

11 A. It is confirmed that the results are sent to Newfoundland Power Inc. It is also confirmed that the
12 thermal units can be determined separately.
